(57) **CLAIM**

The ornamental design for a surgical pump display screen or portion thereof with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a first view of a display screen or portion thereof with graphical user interface, showing our new design; FIG. 2 is a second image thereof; and, FIG. 3 is a third image thereof.

The broken line showing of a display screen or portion thereof with graphical user interface is included for the purpose of showing portions of the article which form no part of the claim.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-3. The process or period in which one image transitions to another image forms no part of the claimed design.
