(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen or portion thereof with graphical user interface showing our new design according to a first embodiment;

FIG. 2 is a front view of a display screen or portion thereof with graphical user interface showing our new design according to a second embodiment;

FIG. 3 is a front view of a display screen or portion thereof with graphical user interface showing our new design according to a third embodiment;

FIG. 4 is another front view of a display screen or portion thereof with graphical user interface showing our new design according to the first embodiment shown in FIG. 1, the plus sign shown in broken lines forms no part of the claimed design; and,

FIG. 5 is yet another front view of a display screen or portion thereof with graphical user interface showing our new design according to the first embodiment shown in FIG. 1, the minus sign shown in broken lines forms no part of the claimed design.

The outer perimeter shown in evenly-spaced dashed broken line in the figures depicts a display screen or portion thereof and forms no part of the claimed design. The remaining evenly-spaced dashed broken lines in the figures depict portions of the graphical user interface that form no part of the claimed design.
