LLP

(57) **CLAIM**

I claim the ornamental design for a collapsible over the sink  
basket, as shown and described.

**DESCRIPTION**

FIG. 1 is a front and top perspective view of a first  
collapsible over the sink basket embodiment of the invention  
in a collapsed position.

FIG. 2 is a left side elevation view of the first embodiment  
of the invention in a collapsed position, the right side  
elevation view being a mirror image of the left side elevation  
view.

FIG. 3 is a front elevation view of the first embodiment of  
the invention in a collapsed position, the rear elevation view  
being a mirror image of the front elevation view.

FIG. 4 is a top plan view of the first embodiment of the  
invention in a collapsed position.

FIG. 5 is a bottom plan view of the first embodiment of the  
invention in a collapsed position.

FIG. 6 is a front and top perspective view of the first  
embodiment of the invention in an expanded position.

FIG. 7 is a left side elevation view of the first embodiment  
of the invention in an expanded position, the right side  
elevation view being a mirror image of the left side elevation  
view.

FIG. 8 is a front elevation view of the first embodiment of  
the invention in an expanded position, the rear elevation  
view being a mirror image of the front elevation view.

FIG. 9 is a top plan view of the first embodiment of the  
invention in an expanded position.

FIG. 10 is a bottom plan view of the first embodiment of the  
invention in an expanded position.

FIG. 11 is a front and top perspective view of a second  
collapsible over the sink basket embodiment of the invention  
in a collapsed position.

FIG. 12 is a left side elevation view of the second embodi-  
ment of the invention in a collapsed position, the right side  
elevation view being a mirror image of the left side elevation  
view.

FIG. 13 is a front elevation view of the second embodiment  
of the invention in a collapsed position, the rear elevation  
view being a mirror image of the front elevation view.

(Continued)

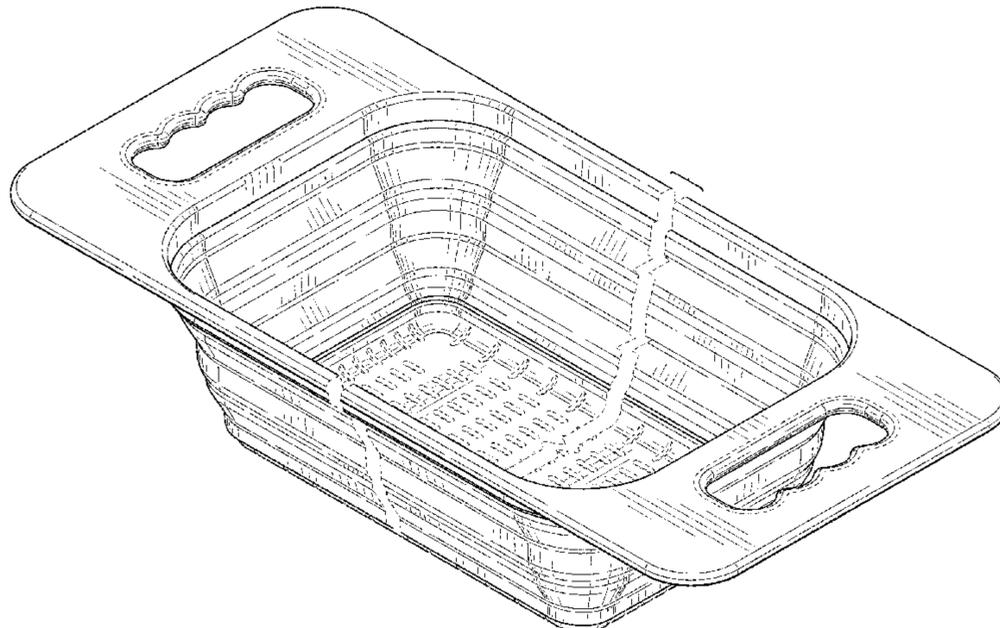

FIG. 14 is a top plan view of the second embodiment of the invention in a collapsed position.

FIG. 15 is a bottom plan view of the second embodiment of the invention in a collapsed position.

FIG. 16 is a front and top perspective view of the second embodiment of the invention in an expanded position.

FIG. 17 is a left side elevation view of the second embodiment of the invention in an expanded position, the right side elevation view being a mirror image of the left side elevation view.

FIG. 18 is a front elevation view of the second embodiment of the invention in an expanded position, the rear elevation view being a mirror image of the front elevation view.

FIG. 19 is a top plan view of the second embodiment of the invention in an expanded position.

FIG. 20 is a bottom plan view of the second embodiment of the invention in an expanded position.

FIG. 21 is a front and top perspective view of a third collapsible over the sink basket embodiment of the invention in a collapsed position.

FIG. 22 is a left side elevation view of the third embodiment of the invention in a collapsed position, the right side elevation view being a mirror image of the left side elevation view.

FIG. 23 is a front elevation view of the third embodiment of the invention in a collapsed position, the rear elevation view being a mirror image of the front elevation view.

FIG. 24 is a top plan view of the third embodiment of the invention in a collapsed position.

FIG. 25 is a bottom plan view of the third embodiment of the invention in a collapsed position.

FIG. 26 is a front and top perspective view of the third embodiment of the invention in an expanded position.

FIG. 27 is a left side elevation view of the third embodiment of the invention in an expanded position, the right side elevation view being a mirror image of the left side elevation view.

FIG. 28 is a front elevation view of the third embodiment of the invention in an expanded position, the rear elevation view being a mirror image of the front elevation view.

FIG. 29 is a top plan view of the third embodiment of the invention in an expanded position; and,

FIG. 30 is a bottom plan view of the third embodiment of the invention in an expanded position.

The baskets are shown partially broken away to indicate indeterminate length. The broken away portions of the baskets follow the configuration and detailing of the portions shown adjacent to the broken away portions.

The broken lines in the drawings depict environment subject matter only and form no part of the claimed design.
