(57) **CLAIM**

The ornamental design for an all terrain vehicle (ATV) and/or utility task/terrain vehicle (UTV) bag, as shown and described.

DESCRIPTION

FIG. 1 is a first perspective view of the front and top sides of an embodiment of an all terrain vehicle (ATV) and/or utility task/terrain vehicle (UTV) bag showing my new design, including front attachment points and rear attachment straps, in a closed/zipped condition;

FIG. 2 is a second perspective view of the top and rear sides thereof;

FIG. 3 is a front view thereof;

FIG. 4 is a top view thereof;

FIG. 5 is a rear view thereof;

FIG. 6 is a bottom view thereof;

FIG. 7 is a right-side view thereof;

FIG. 8 is a left-side view thereof;

FIG. 9 is a third perspective view thereof identical to FIG. 1 except for a partially peripherally-extending zipper flap turned upwardly to expose a corresponding partially peripherally-extending double slider (head-to-head arrangement) zipper in a closed/zipped condition;

FIG. 10 is a fourth perspective view of the front and top sides thereof with the partially peripherally-extending zipper in an open/unzipped condition and the top side and bag in a partially open condition exposing an interior of the bag;

FIG. 11 is a fifth perspective view of the front and top sides thereof in the closed/zipped condition together with a perspective view of an ATV or UTV for use therewith shown in phantom illustrating an in-vehicle installed condition and position of the bag in a bed of the ATV or UTV with attachment devices attaching the attachment points to the bed and the straps attached to structure of the ATV or UTV;

FIG. 12 is a right-side view thereof;

FIG. 13 is a left-side view thereof;

FIG. 14 is a bottom view of an alternate embodiment thereof that also includes rear end attachment points;

FIG. 15 is a right-side view of the embodiment of FIG. 14 with a partial view of the ATV or UTV of FIG. 11 for use therewith shown in phantom illustrating an in-vehicle installed condition and position of the bag in a bed of the

(Continued)

ATV or UTV with attachment devices attaching the attachment points to the bed and the straps attached to structure of the ATV or UTV; and,

FIG. 16 is a left-side view thereof.

The broken lines on the surface of the invention represent stitching, which forms no part of the claimed design. The dot-dot-dash broken lines used to depict the ATV/UTV environment in FIGS. 11-13 and FIGS. 15-16 form no part of the claimed design.
