(57) **CLAIM**

The ornamental design for a combined small cell and wireless networking node for mounting on a light pole, as shown and described.

DESCRIPTION

FIG. 1 is a bottom-rear-side perspective view of a combined small cell and wireless networking node for mounting on a light pole showing a second embodiment of our new design. FIG. 2 is a bottom-rear-side perspective view thereof. FIG. 3 is a top plan view thereof. FIG. 4 is a bottom plan view thereof. FIG. 5 is a left side elevational view thereof. FIG. 6 is a right side elevational view thereof. FIG. 7 is a rear elevational view thereof. FIG. 8 is a front elevational view thereof; and, FIG. 9 is a perspective view of a combined small cell and wireless networking node for mounting on a light pole shown mounted on an environmental light pole fixture. The broken lines in FIG. 9 showing the light pole depict environment only and form no part of the claim, while all other broken lines showing the light sensor depict portions of the combined small cell and wireless networking node for mounting on a light pole that from no part of the claimed design. Stippling shown in the drawings are intended to represent the approximate three-dimensional contour of the design and are not intended to indicate surface decoration.
