(57) **CLAIM**

We claim the ornamental design for a display screen with a graphical user interface, as shown and described.

DESCRIPTION

This patent contains at least one drawing executed in color. Copies of this patent with a color drawing will be provided by the Office upon request and payment of the necessary fee. FIG. 1 depicts a front view of a display screen with a graphical user interface showing a first embodiment of an operation selection main screen of the design; and, FIG. 2 depicts a front view of a display screen with a graphical user interface showing a second embodiment of an operation selection main screen of the design. The outermost broken line rectangle illustrates an electronic device. The innermost broken line rectangle illustrates the display screen. None of the broken lines form part of the claimed design.
