(57) **CLAIM**

We claim the ornamental design for a display screen or portion thereof with an animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image in a sequence for a display screen or portion thereof with an animated graphical user interface showing our new design; and, FIG. 2 is a front view of a second image thereof.

The outermost broken line rectangle shows the display screen or portion thereof. All other broken lines show portions of the animated graphical user interface and form no part of the claimed design.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-2. The process or period in which one image transitions to another forms no part of the claimed design.

The figure shows a calendar application interface. At the top, there is a toolbar with icons for home, calendar, messages, and other functions. Below the toolbar is a 'SUBJECT' field. The main area is a calendar grid with a vertical axis for time (9:00 to 19:00) and a horizontal axis for days (DEC). A 'CALENDAR' label is positioned above the grid. An 'ATTENDEES' section is located below the calendar, featuring a list of attendees with checkboxes and a 'CANCEL' button. A 'CANCEL' button is also present at the bottom right of the interface.
