(57) **CLAIM**

The ornamental design for a biometric wearable health and performance device for animals, as shown and described.

DESCRIPTION

FIG. 1 is a bottom front perspective view of a biometric wearable health and performance device for animal, showing an attachment element and a utility compartment flap in an open position;

FIG. 2 is a top rear perspective view thereof;

FIG. 3 is a right side elevation view thereof;

FIG. 4 is a front elevation view thereof;

FIG. 5 is a left side elevation view thereof;

FIG. 6 is a rear elevation view thereof;

FIG. 7 is a bottom view thereof;

FIG. 8 is a top plan view thereof;

FIG. 9 is a right side elevation view thereof, showing the attachment element and the utility compartment flap in closed positions; and,

FIG. 10 is a top rear perspective view thereof, showing the attachment element attached to the hair of an animal with the utility compartment flap in a closed position.

The broken lines depicting a portion of an animal in FIG. 10 represent an environment; the broken lines form no part of the claimed design.
