(57) **CLAIM**

The ornamental design for a document camera, as shown and described.

DESCRIPTION

FIG. 1 is a front, top, and right side perspective view of a document camera.

FIG. 2 is a front view of the document camera.

FIG. 3 is a rear view of the document camera.

FIG. 4 is a right side view of the document camera.

FIG. 5 is a left side view of the document camera.

FIG. 6 is a top view of the document camera.

FIG. 7 is a bottom view of the document camera.

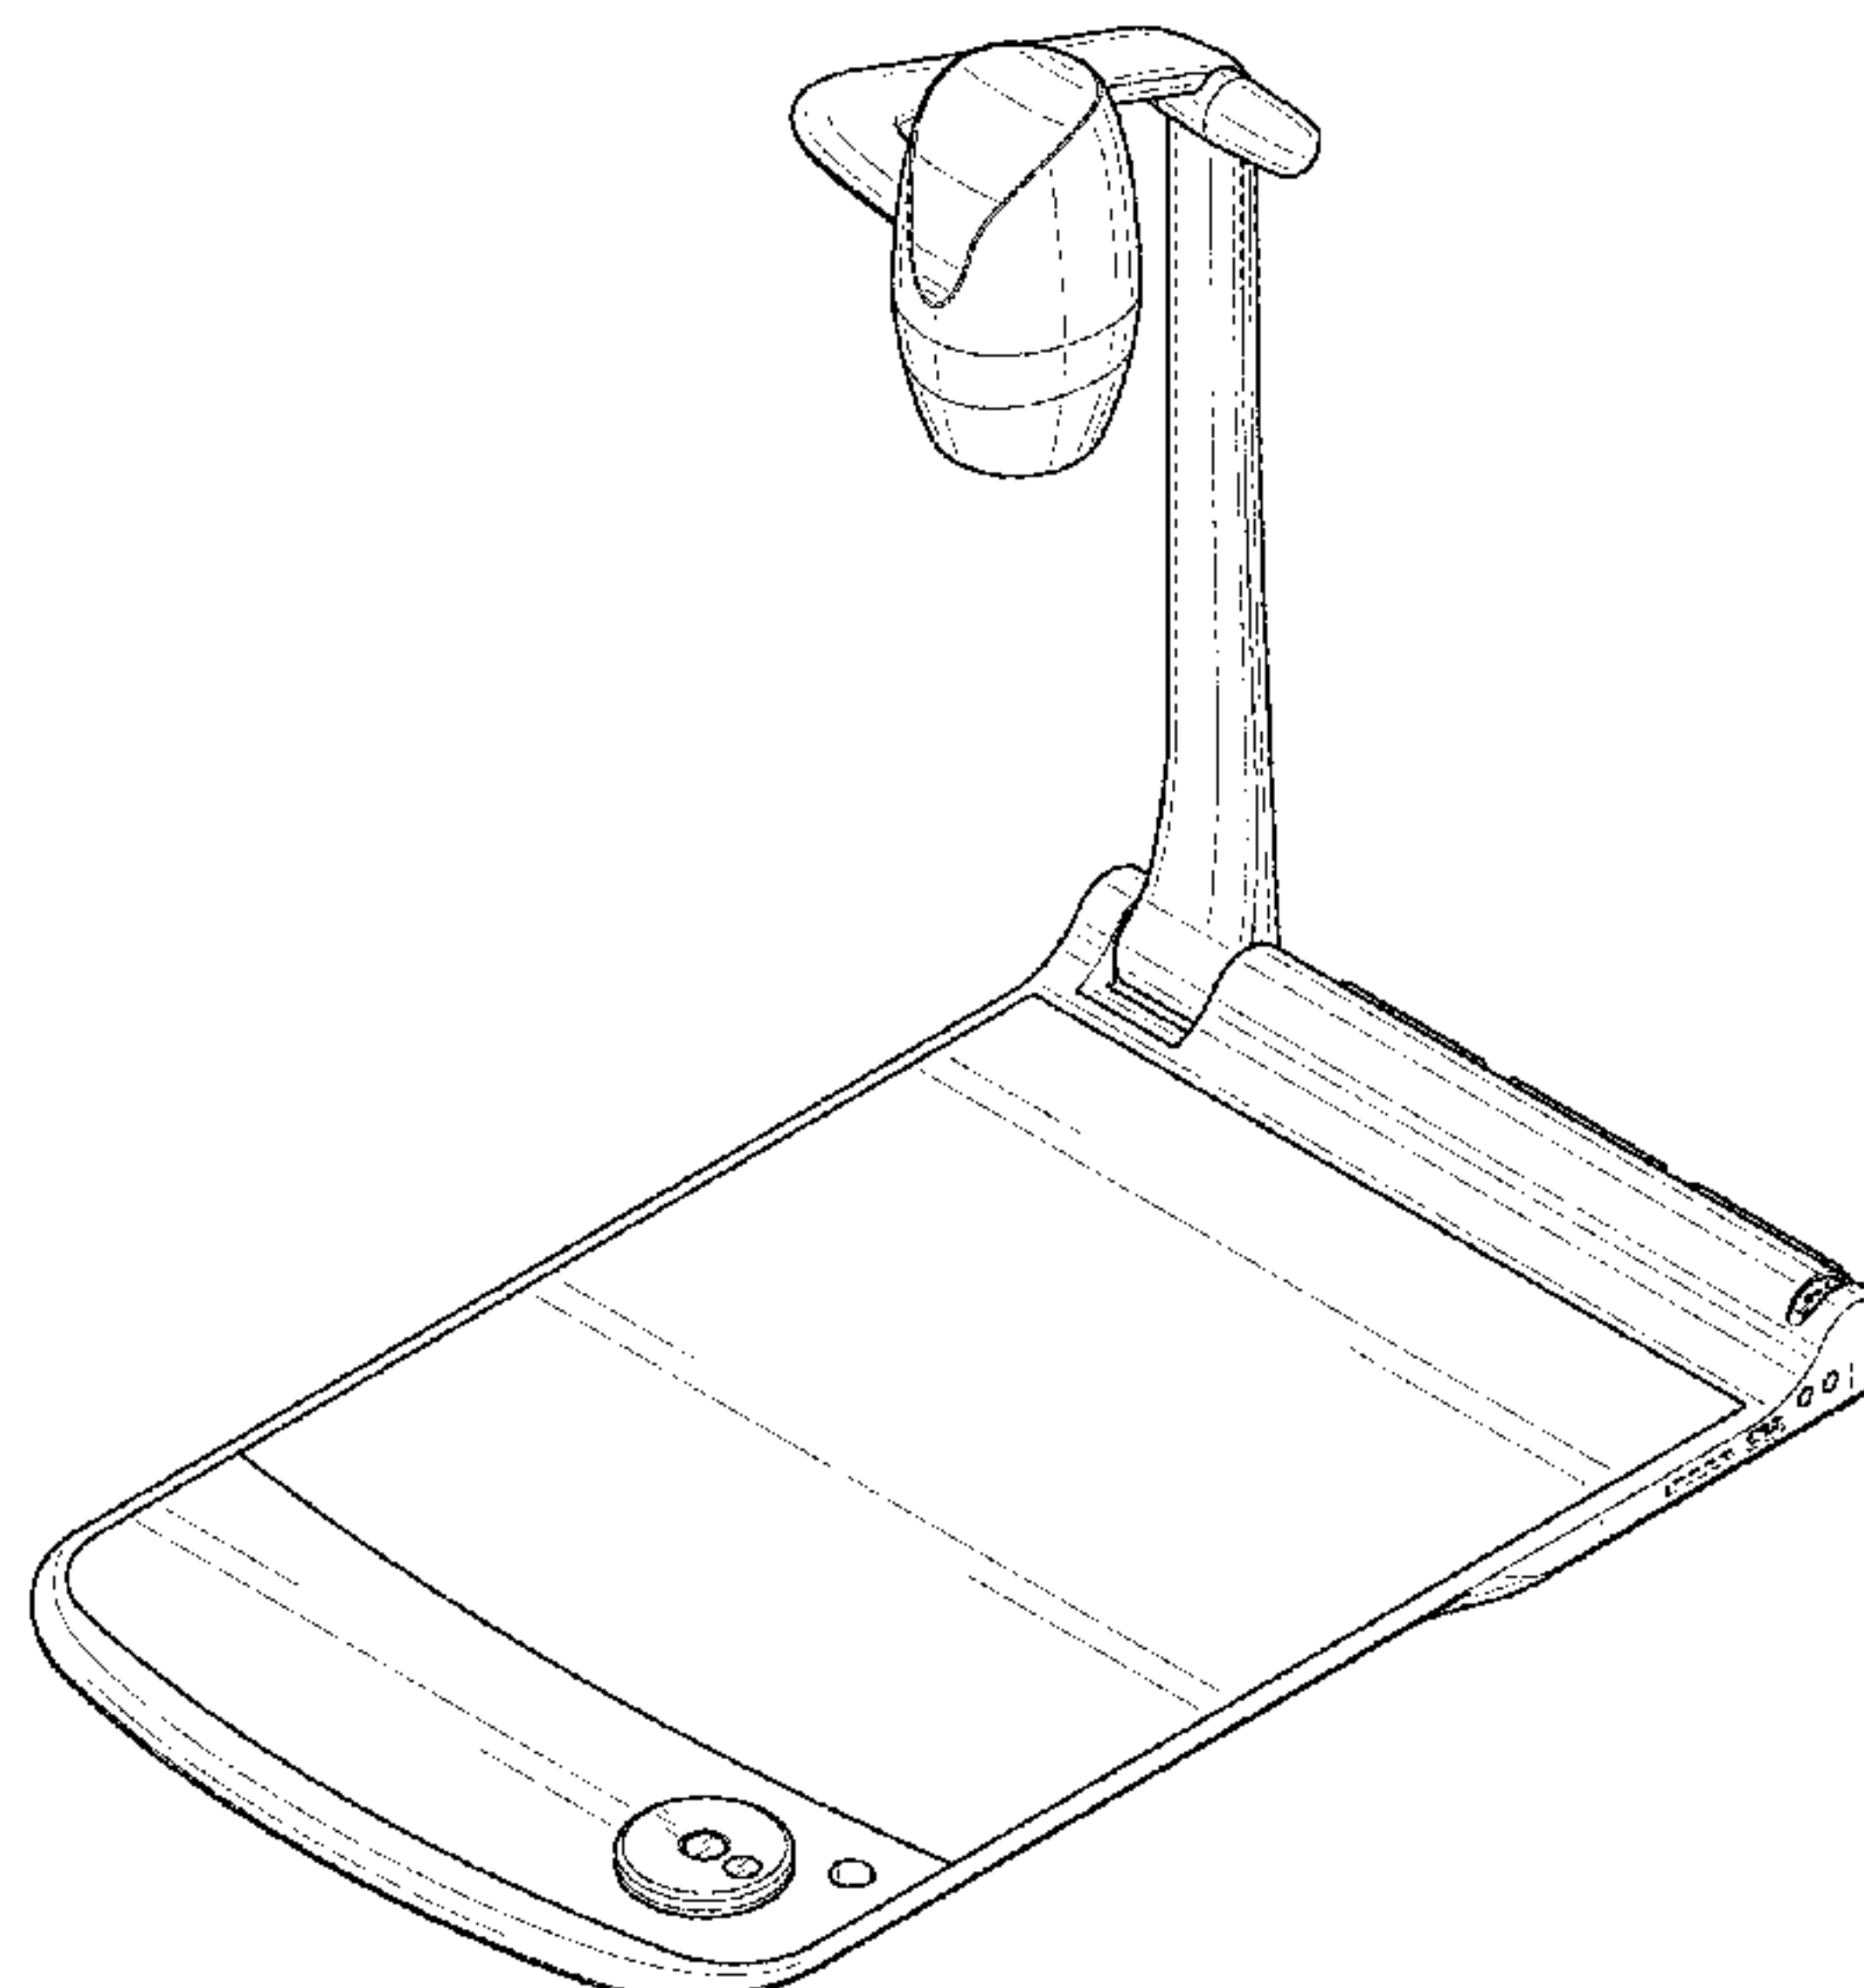

FIG. 8 is a rear, top, and left side perspective view of the document camera.

FIG. 9 is a front, top, and right side perspective view of the document camera shown in an alternate configuration, in which the camera unit is rotated in the front direction.

FIG. 10 is a front, top, and right side perspective view of the document camera shown in an alternate configuration, in which the upper arm of the arm supporting the camera unit is folded, and the camera unit is directed in the rear; and, FIG. 11 is a front, top, and right side perspective view of the document camera shown in alternate configuration, in which the arm supporting the camera unit is folded, and the camera unit is rotated in the front direction.

The broken lines in the drawings illustrate portions of the document camera and form no part of the claimed design.

1 Claim, 11 Drawing Sheets
