(57) **CLAIM**

The ornamental design for a tile, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a tile in accordance with my new design;

FIG. 2 is a top plan view thereof;

FIG. 3 is a front elevation view, the back elevation view being a mirror image thereof;

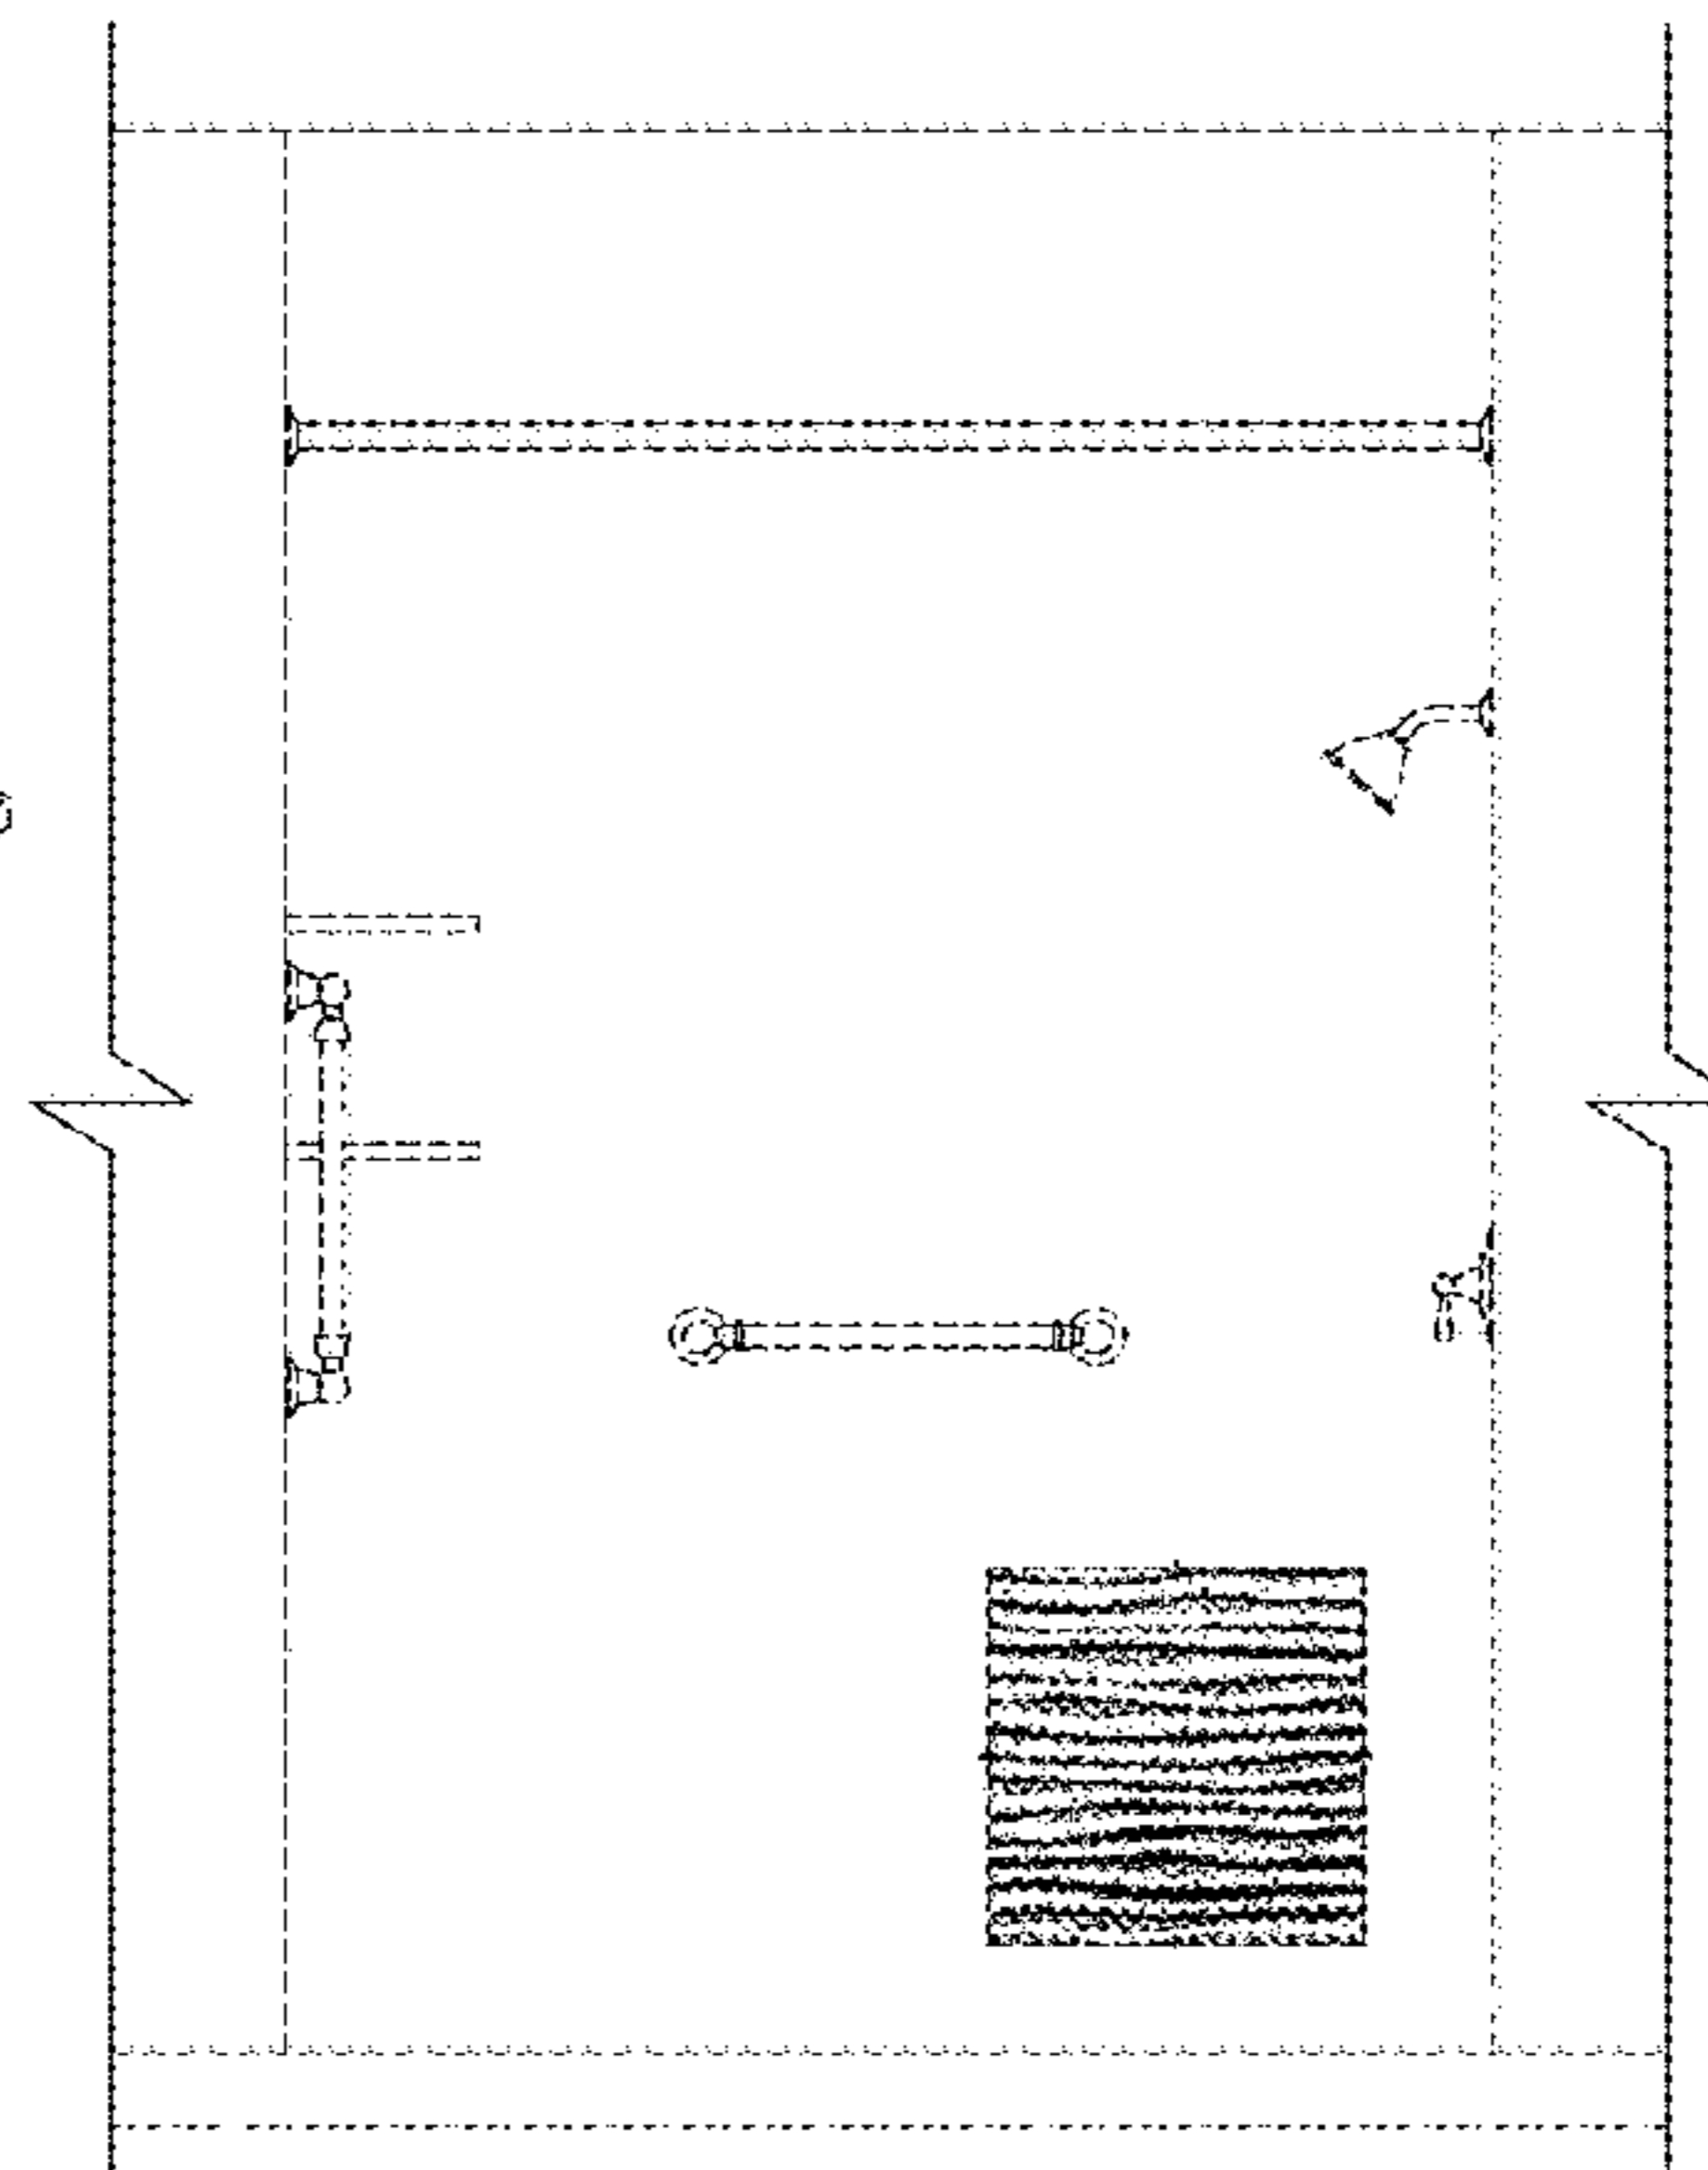

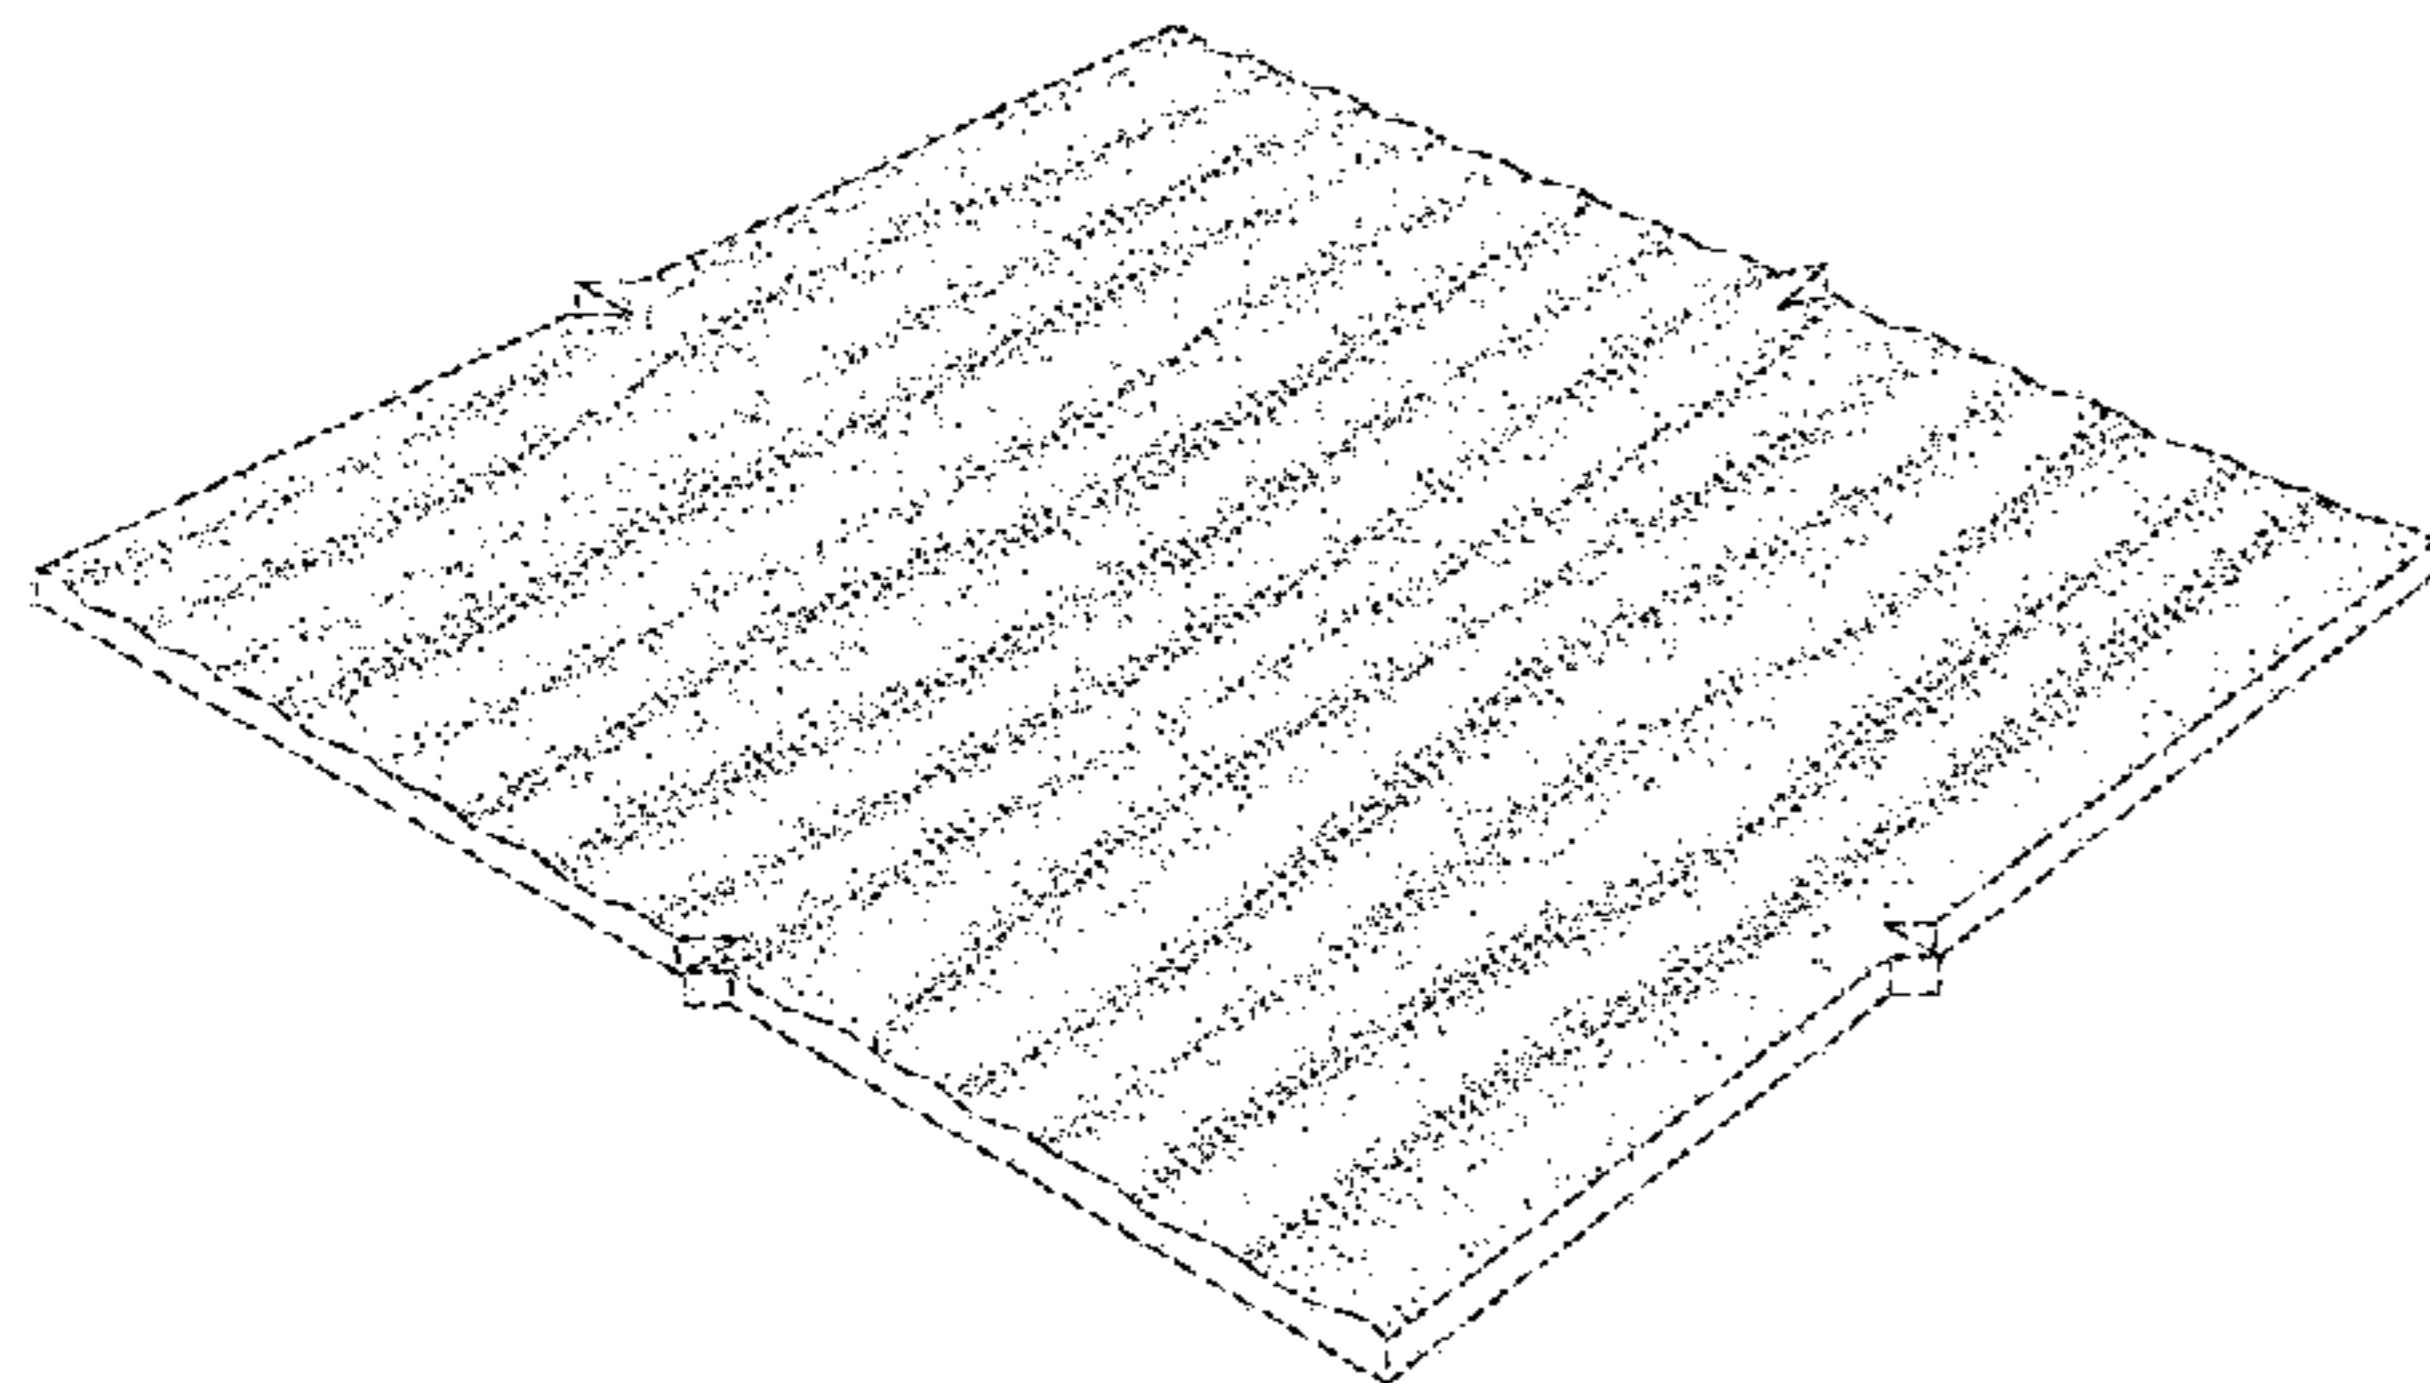

FIG. 4 is a side elevation view thereof;

FIG. 5 is an opposite side elevation view thereof; and,

FIG. 6 is a front elevation view thereof, shown in a position of use.

The tile is shown with symbolic breaks along its length and width. The appearance of any portion of the article beyond the break lines forms no part of the claimed design. The broken lines in FIGS. 1-5 illustrate portions of the tile that form no part of claimed design. The broken lines in FIG. 6 depicting elements in a shower represent environmental subject matter that forms no part of the claimed design. In use, additional tiles are repeated for a continuous appearance throughout the shower; however, for clarity of illustration, only the claimed design is shown so that the shower elements are more legible.
