(57) **CLAIM**

The ornamental design for a garment safety pocket, as shown and described.

DESCRIPTION

FIG. 1 is a first front perspective view of a garment safety pocket showing my new design with the zipper in a closed, downward position;

FIG. 2 is a second front perspective view thereof with the zipper in an open, upward position;

FIG. 3 is a third front perspective view thereof with the zipper in an open, upward position showing a first internal pocket that is affixable to internally to the front of a garment in an open state;

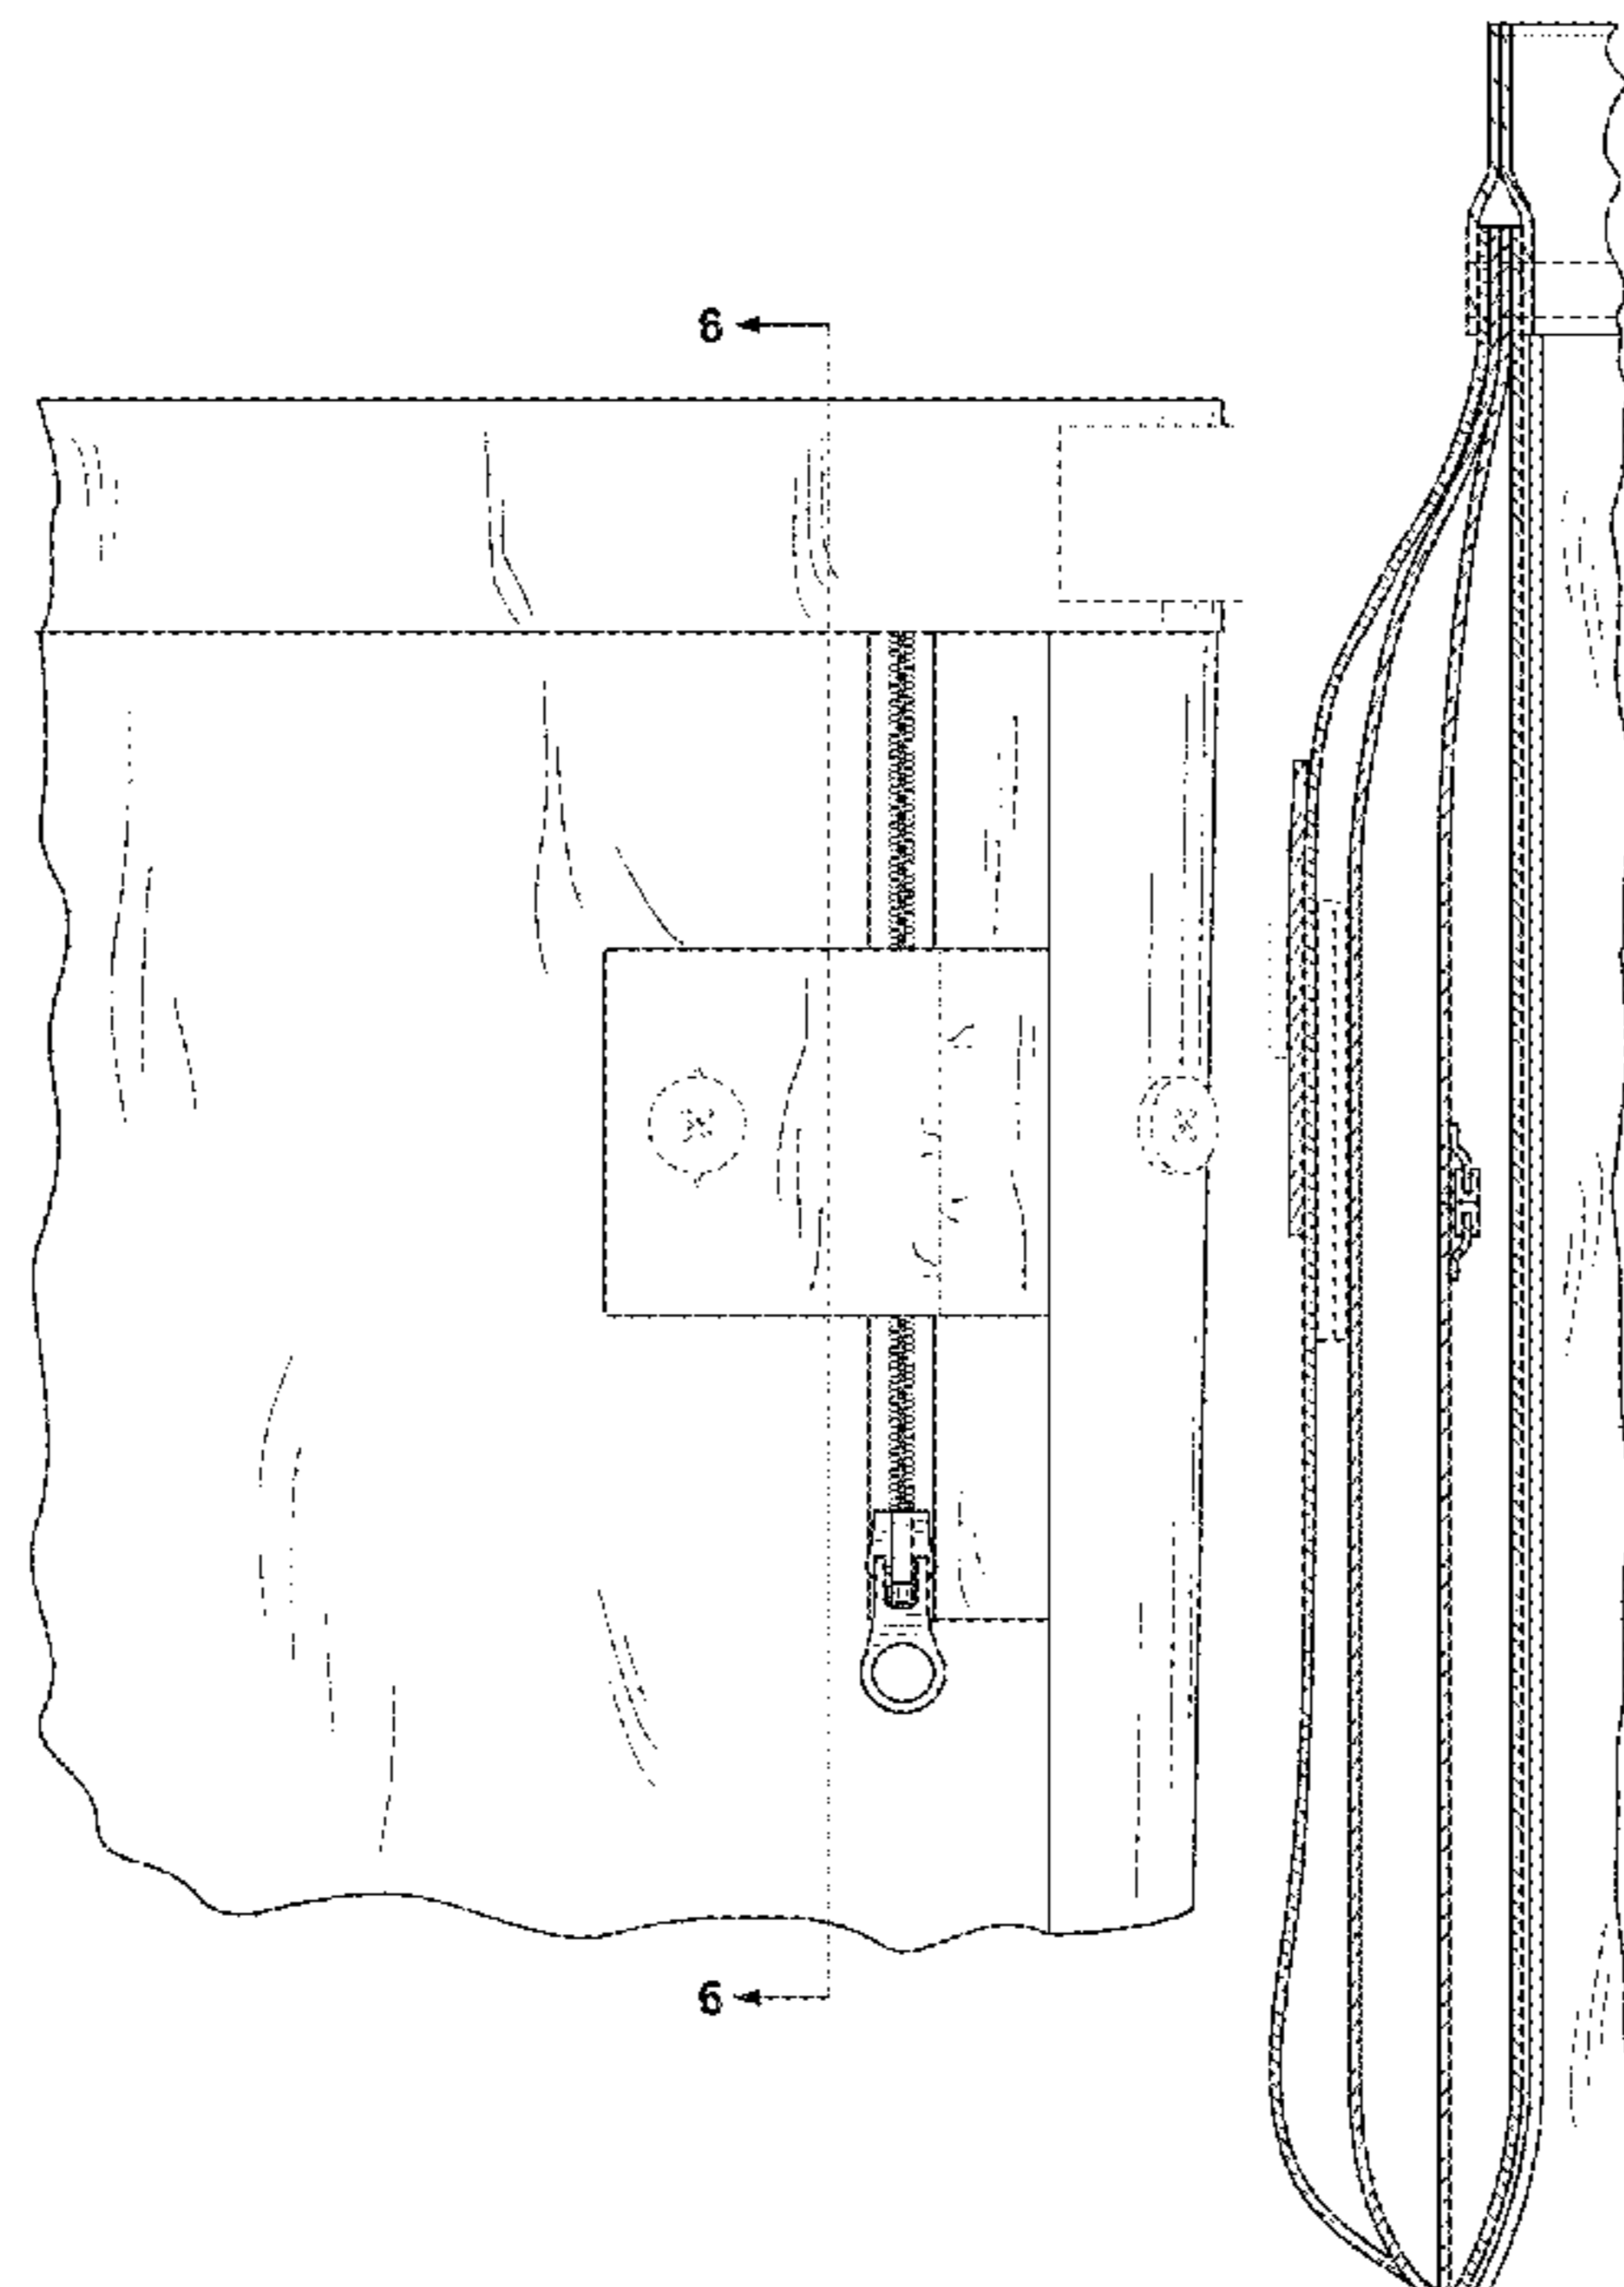

FIG. 4 is a fourth perspective view thereof with the zipper in an open, upward position showing a first internal pocket that is affixable to internally to the front of a garment in an open state;

FIG. 5 is a fifth perspective view thereof with the zipper in an open, upward position showing the first internal pocket in a closed state and a second internal pocket in a closed state; and,

FIG. 6 is a cross-sectional view taken along line 6-6 in FIG. 1, showing the external portion of the garment safety pocket, the first internal pocket and the second internal pocket.

The broken lines shown in the drawings are included for the purpose of illustrating portions of the garment safety pocket that form no part of the claimed design.
