(57) **CLAIM**

The ornamental design for a display screen with an animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image in a sequence of a display screen with a graphical user interface, showing our new design;
FIG. 2 is a second image of the sequence;
FIG. 3 is a third image of the sequence;
FIG. 4 is a fourth image of the sequence;
FIG. 5 is a fifth image of the sequence; and,
FIG. 6 is a sixth image of the sequence.
The appearance of the image transitions sequentially between the images shown in the sequence of FIGS. 1 through 6. The process or period in which one image transitions to another forms no part of the claimed design. The broken lines showing the watch bands and the outer housing of the watch body and button illustrate an electronic device, which is the environment of the design, and forms no part of the claim. The broken line within the inner solid line circle, excluding the text in FIG. 6, are part of the claimed design. The remaining broken lines, including all text, illustrate portions of the graphical user interface that form no part of the claimed design.

1 Claim, 6 Drawing Sheets
