(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

A portion of the disclosure of this patent document contains material which is subject to copyright protection. The copyright owner has not objected to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the Patent and Trademark Office patent file or records, but otherwise reserves all copyright rights whatsoever. The following notice applies to the user interfaces and software as described below and in the drawings that form a part of this document: Copyright 2018 SAE International. All rights reserved.

The FIGURE is a front view of a display screen with graphical user interface, showing our new design.

Hatched shading indicates a contrast in appearance.

The broken lines shown in the FIGURE are environmental only and form no part of the claimed design. The broken lines showing text form no part of the claimed design. The outer rectangle in broken lines is included to illustrate a portion of a display screen and forms no part of the claimed design.
