DESCRIPTION

(62) Division of application No. 35/505,527, filed on Feb.
19, 2018 (U.S. filing date under 35 U.S.C. 384), and
having an international filing date of Feb. 19, 2018.

FIG. 1 is a front elevational view of a desk showing my
design;

FIG. 2 is a rear elevational view of the desk;

FIG. 3 is a right side elevational view of the desk;

FIG. 4 is a top plan view of the desk;

FIG. 5 is a bottom plan view of the desk;

FIG. 6 is a cross-sectional view of the desk vertically
sectioned at a center of the desk; and,

FIG. 7 is an enlarged perspective view of an upper portion
of the desk.

The left side elevational view of the desk is omitted because
it is a mirror image of the right side elevational view.

Throughout the Figures, portions represented by broken
lines are not parts of the claimed design; the dot-and-dash
lines merely show the boundaries between the claimed parts
to be protected and the other parts; and the parallel thin lines
on surfaces represent surface shading and do not illustrate
ornamentation or decoration.

In FIG. 6, the parallel lines on sectional surfaces represent
hatching.
