(57) **CLAIM**

The ornamental design for a display screen with an animated radial menu in a graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a first image of a display screen with an animated radial menu in a graphical user interface, showing our new design; and,  
FIG. 2 is a second image thereof.  
The appearance of the display screen with the animated radial menu in the graphical user interface sequentially transitions between the images shown in FIGS. 1-2. The process or period in which one image transitions to another image forms no part of the claimed design.  
The broken line depiction of a portion of the graphical user interface is included for the purpose of illustrating portions of the article and forms no part of the claimed design. Further, the broken line showing of a watch is included for the purpose of illustrating environmental structure and forms no part of the claimed design.
