(57) **CLAIM**

The ornamental design for a unitary spinal disc implant with at least one conic protrusion, substantially as shown and described.

DESCRIPTION

FIG. 1 is a side elevation view showing our new design for a unitary spinal disc implant with at least one conic protrusion on one or more bearing surfaces;
FIG. 2 is a top plan elevation view of FIG. 1;
FIG. 3 is a top perspective view of FIG. 1;
FIG. 4 is a bottom perspective view of FIG. 1, wherein the central conic protrusion illustrates a cone having a blind hole in the center thereof; and,
FIG. 5 is another top perspective view of FIG. 1, without a conic projection on the top surface.
