(57) **CLAIM**

The ornamental design for a medical imaging display screen with user interface, as shown and described.

DESCRIPTION

The FIGURE is a front view of a medical imaging display screen with graphical user interface in accordance with the new design.

The portions of the medical imaging display screen with graphical user interface shown in broken lines form no part of the claimed design. The outer rectangle shown in broken lines represents the medical imaging display screen and forms no part of the claimed design.
