DESCRIPTION

1. Tablet computer with animated graphical user interface
1.1 is front view of a first image in a sequence for a tablet computer with animated graphical user interface showing the new design;
1.2 is a front view of a second image thereof;
1.3 is an enlarged view of the animated graphical user interface shown in **1.1**; and
1.4 is an enlarged view of the animated graphical user interface shown in **1.2**.

The appearance of the image transitions sequentially between the images shown in reproductions **1.1** and **1.2**. The process or period in which one image transitions to another forms no part of the claimed design.

The evenly spaced broken lines shown in the drawings depict the tablet computer and form no part of the claimed design. The dash-dot broken lines depict the boundaries of the claim and form no part of the claimed design.
