(57) **CLAIM**

The ornamental design for a portion of a display panel with animated graphical user interface for a trading program, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image in a sequence of images of a portion of a display panel with animated graphical user interface for a trading program;

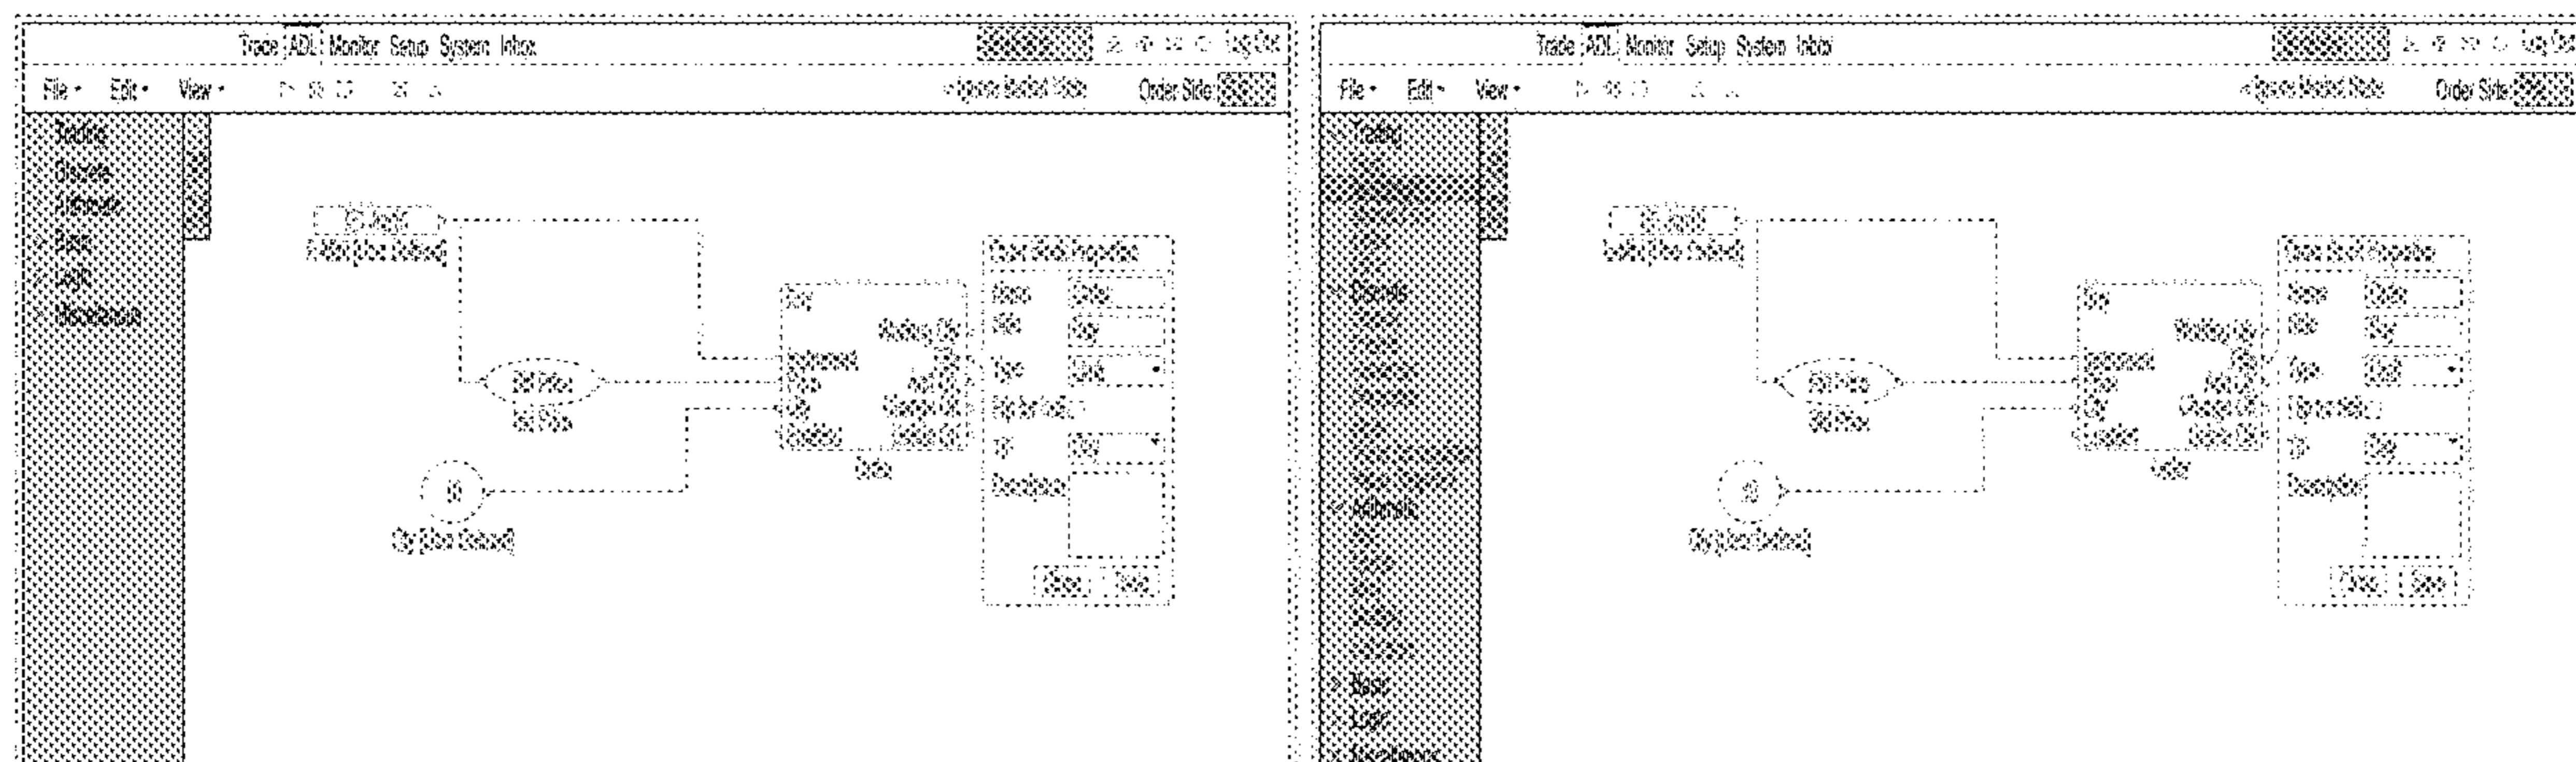

FIG. 2 is a front view of a second image of the sequence of images of the animated graphical user interface illustrated in FIG. 1;

FIG. 3 is a front view of a first image in a sequence of images of a second embodiment of a portion of a display panel with animated graphical user interface for a trading program; and, FIG. 4 is a front view of a second image of the sequence of images of the animated graphical user interface illustrated in FIG. 3.

The broken lines in the drawings depict portions of the graphical user interface, or of a display panel, of the portion of a display panel with animated graphical user interface for a trading program that form no part of the claimed design. The broken lines in the drawings form no part of the claimed design. In FIGS. 1-4, where colors are present, the color forms a part of the claimed design.

As to the first embodiment, the appearance of the animated images transitions between the images shown in FIGS. 1 through 2. The process or period in which one image transitions to another forms no part of the claimed design. As to the second embodiment, the appearance of the animated images transitions between the images shown in FIGS. 3 through 4. The process or period in which one image transitions to another forms no part of the claimed design.
