(57) **CLAIM**

The ornamental design for mounting pads for a routing box on a hydraulic manifold for actuator control with dual solenoids, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view showing the top, front, and right sides of mounting pads for a routing box on a hydraulic manifold for actuator control with dual solenoids showing the new design;

FIG. 2 is a right side elevation view thereof;

FIG. 3 is a left side elevation view thereof;

FIG. 4 is a top side elevation view thereof;

FIG. 5 is a front side elevation view thereof; and,

FIG. 6 is a back side elevation view thereof.

The evenly spaced broken lines depict portions of the manifold and environmental subject matter that forms no part of the claim. The dash-dot broken lines represent boundaries of the claim and form no part thereof.
