(57) **CLAIM**

The ornamental design for an aircraft seat, as shown and described.

DESCRIPTION

FIG. 1 is a rear elevational view of an aircraft seat showing our new design;
FIG. 2 is a right side elevational view of an aircraft seat showing our new design.
FIG. 3 is a front elevational view of an aircraft seat showing our new design.
FIG. 4 is a left side elevational view of an aircraft seat showing our new design.
FIG. 5 is front perspective view of an aircraft seat showing our new design.
FIG. 6 is a top plan view of an aircraft seat showing our new design.
FIG. 7 is a front perspective view of an aircraft seat showing our new design with a bench extension extended.
FIG. 8 is a top plan view of an aircraft seat showing our new design with a bench extension extended.
FIG. 9 is a left elevational view of an aircraft seat showing our new design with a bench extension extended; and,
FIG. 10 is a front elevational view of an aircraft seat showing our new design with a bench extension extended.
The broken lines in the FIGURES represent portions of the aircraft seat that form no part of the claimed design.
