(57) **CLAIM**

The ornamental design for a television receiver, as shown and described.

DESCRIPTION

1. Television receiver

1.1 is a front perspective view of a television receiver showing the new design;

1.2 is a front view thereof;

1.3 is a back view thereof;

1.4 is a left side view thereof, where the right side view is a mirror image thereof;

1.5 is a top view thereof;

1.6 is a bottom view thereof;

1.7 is a back perspective view thereof;

1.8 is a bottom front perspective view thereof;

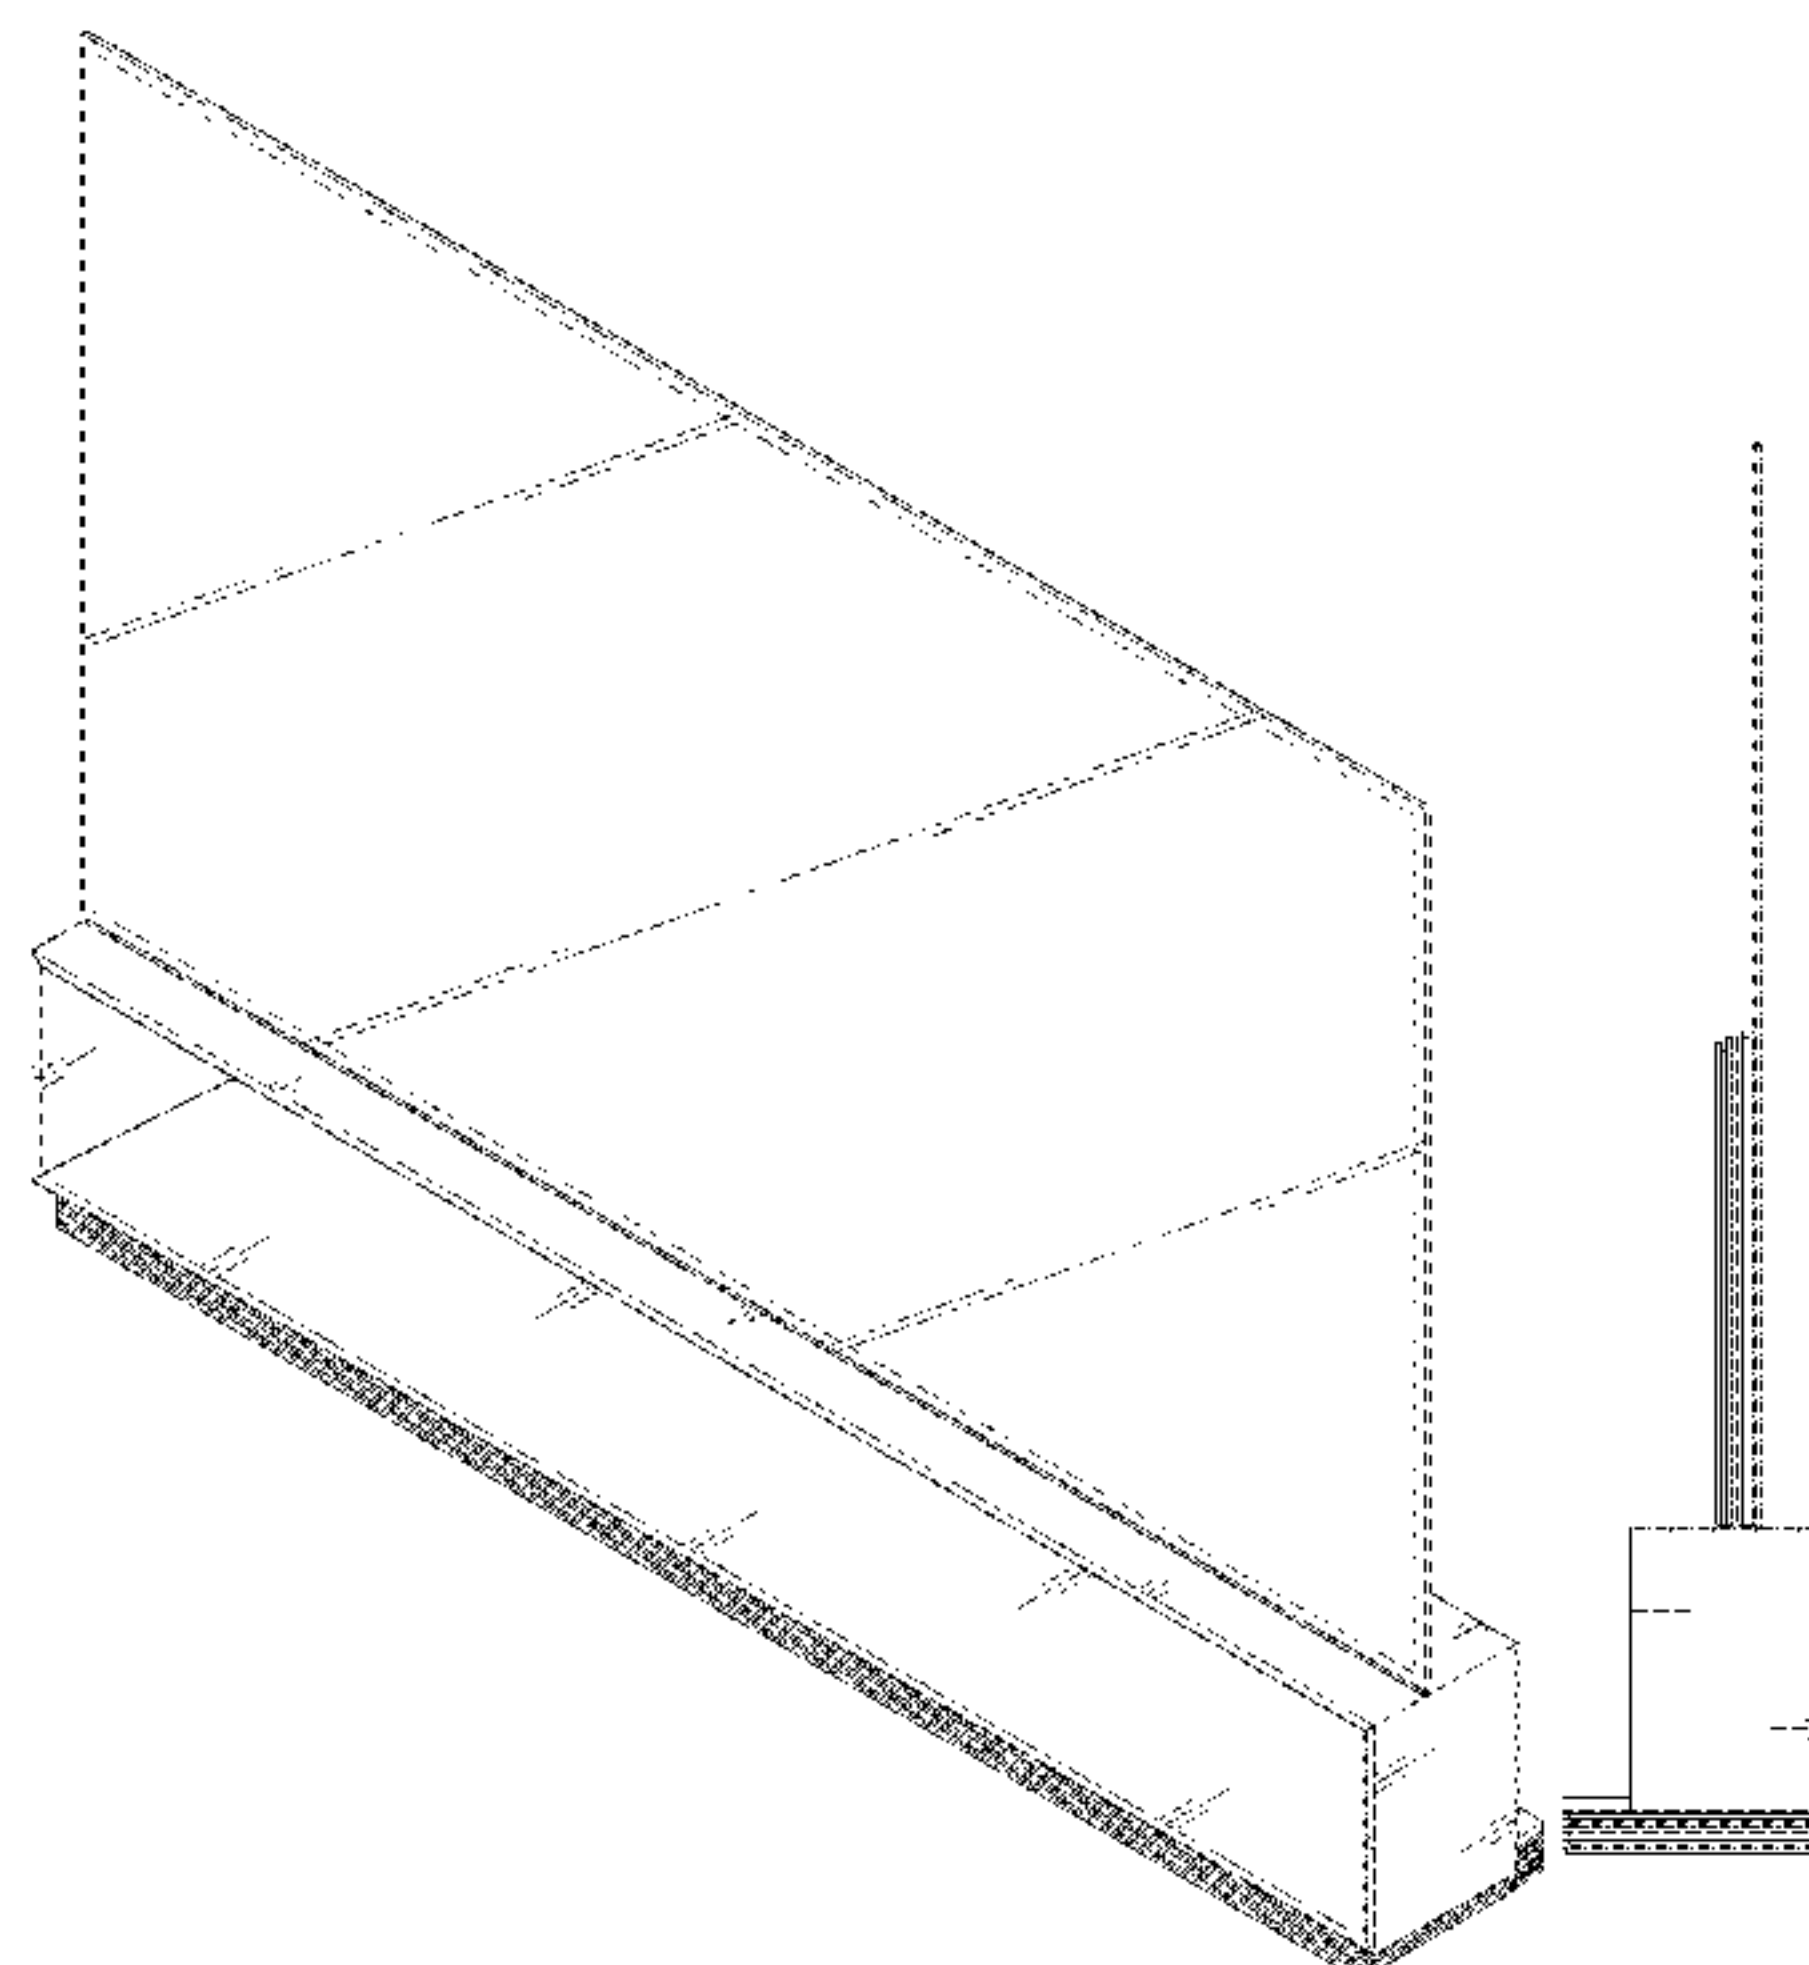

1.9 is a bottom front perspective view thereof showing a use state where the sound reflector has been slid down; and

1.10 is an enlarged view of a portion of **1.7**.

This design is for a television receiver where the bottom rectangular frame can be used as a storage space; as shown in reproduction **1.10**, the cable is arranged neatly through the hole at the back bottom; a sound reflector, which amplifies the sound, is hidden inside the upper part of the rectangular frame of the claimed design and is slid down as shown in reproduction **1.9** when using the television receiver.

The broken lines depict portions of the television receiver that form no part of the claimed design; the broken lines in reproduction **1.10** illustrate an example in-use environment showing a cable going through holes at the back of the television receiver and forms no part of the claimed design;

(Continued)

the dot-dashed lines indicate portions of the claimed design that are shown in the enlarged views, and form no part thereof.
