(57) **CLAIM**

The ornamental design for a door locking device, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the first embodiment of the door locking device;

FIG. 2 is a top plan view of the first embodiment of the door locking device;

FIG. 3 is a bottom plan view of the first embodiment of the door locking device;

FIG. 4 is a side elevation of the first embodiment of the door locking device;

FIG. 5 is a second side elevation of the first embodiment of the door locking device;

FIG. 6 is a front elevation of the first embodiment of the door locking device;

FIG. 7 is a rear elevation of the first embodiment of the door locking device;

FIG. 8 is a perspective view of the second embodiment of the door locking device;

FIG. 9 is a top plan of the second embodiment of the door locking device;

FIG. 10 is a bottom plan of the second embodiment of the door locking device;

FIG. 11 is a side elevation of the second embodiment of the door locking device;

FIG. 12 is a second side elevation of the second embodiment of the door locking device;

FIG. 13 is a front elevation of the second embodiment of the door locking device;

FIG. 14 is a rear elevation of the second embodiment of the door locking device;

FIG. 15 is a perspective view of the first embodiment of the door locking device in implementation and in an open state;

FIG. 16 is a perspective view of the first embodiment of the door locking device in implementation and in a closed state;

FIG. 17 is a perspective view of the second embodiment of the door locking device in implementation and in an open state; and,

FIG. 18 is a perspective view of the second embodiment of the door locking device in implementation and in a closed state.

The broken-lines shown in the figures depict portions of the door locking device that form no part of the claimed design.
