(57) **CLAIM**

The ornamental design for an orthosis, as shown and described.

DESCRIPTION

FIG. 1 is a front elevation view of an orthosis, showing my new design in accordance with a first embodiment of the invention;

FIG. 2 is an upper front perspective view thereof in a configuration of use;

FIG. 3 is another upper front perspective view thereof in the configuration of use;

FIG. 4 is another upper front perspective view thereof in the configuration of use;

FIG. 5 is another upper front perspective view thereof in the configuration of use;

FIG. 6 is another upper front perspective view thereof in the configuration of use;

FIG. 7 is a front elevation view of an orthosis, showing my new design in accordance with a second embodiment of the invention;

FIG. 8 is an upper front perspective view thereof in a configuration of use;

FIG. 9 is another upper front perspective view thereof in the configuration of use;

FIG. 10 is another upper front perspective view thereof in the configuration of use;

FIG. 11 is another upper front perspective view thereof in the configuration of use;

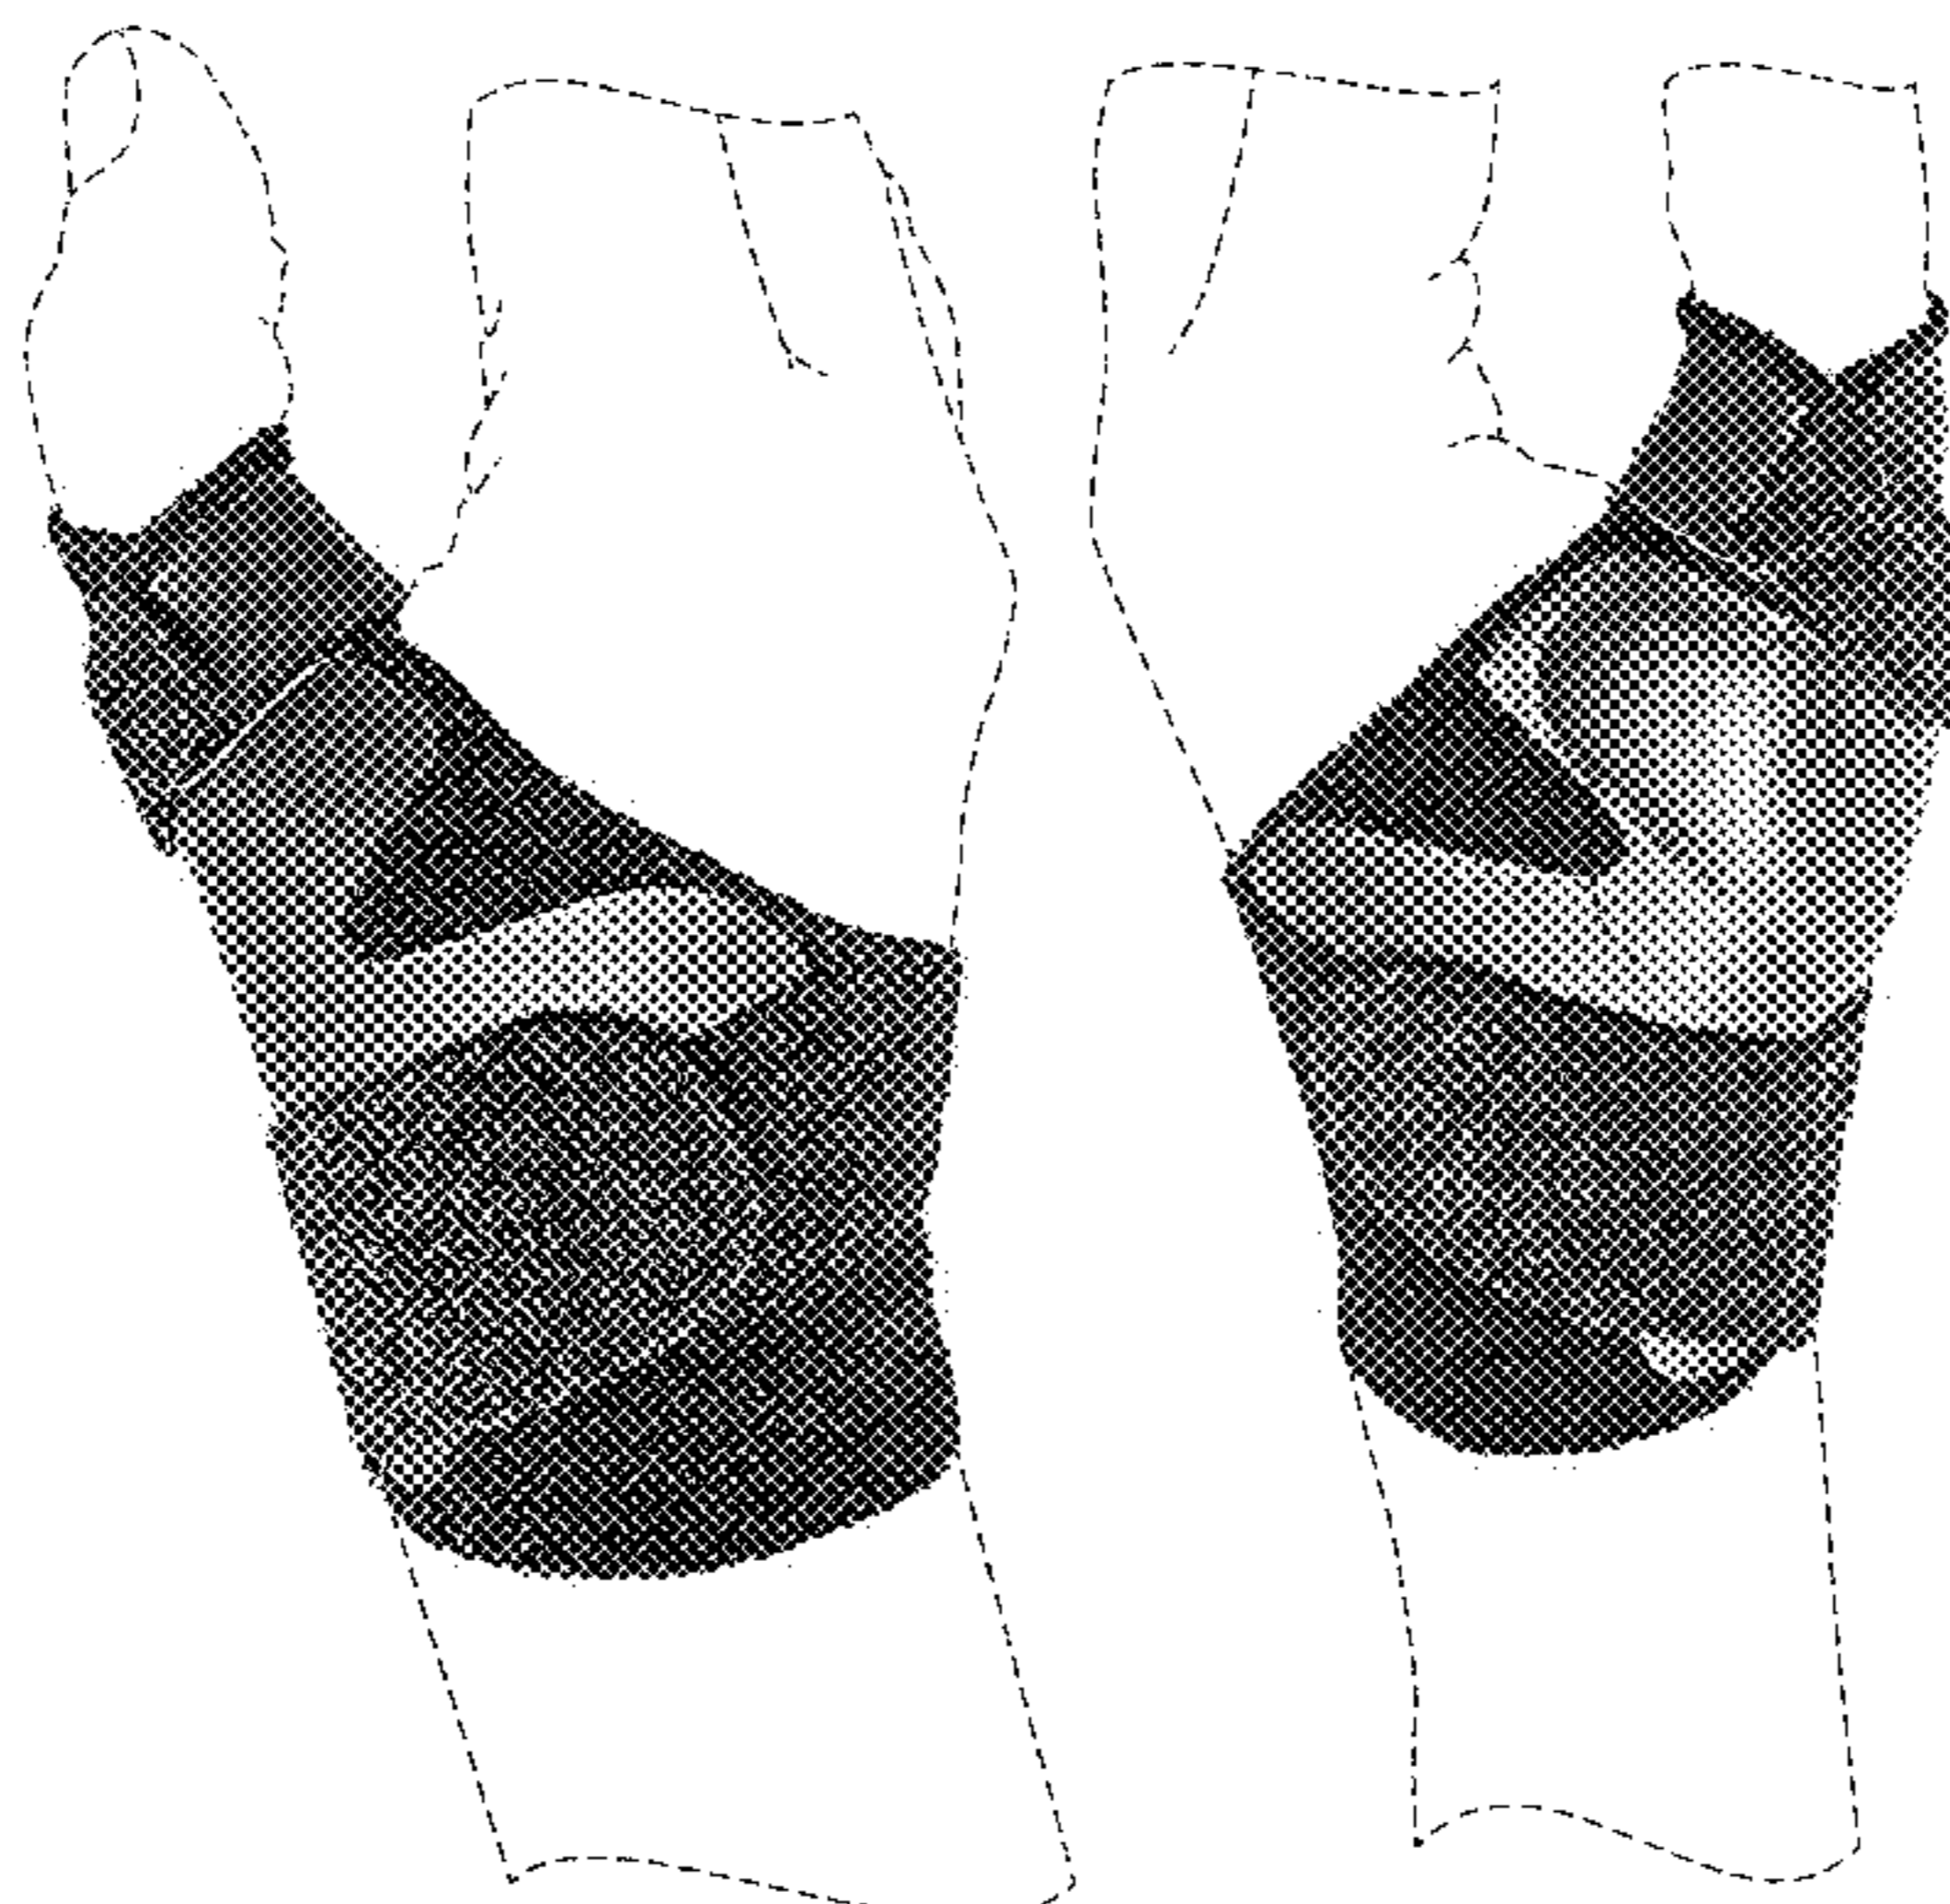

FIG. 12 is another upper front perspective view thereof in the configuration of use; and,

FIG. 13 is another upper front perspective view thereof in the configuration of use.

Rear side elevation views of the embodiments of the orthosis are omitted because they are plain and unornamental and form no part of the subject matter of the claimed design.

The broken lines shown in FIGS. 2-6 and 8-13 of a wearer's hand are for the purpose of illustrating environmental structure and form no part of the claimed design.
