(57) **CLAIM**

The ornamental design for a double layer structure of the condenser, as shown and described.

DESCRIPTION

FIG. 1 is a left front perspective view of a double layer structure of the condenser according to the present invention;

FIG. 2 is a front view of a double layer structure of the condenser according to the present invention;

FIG. 3 is a rear view of a double layer structure of the condenser according to the present invention;

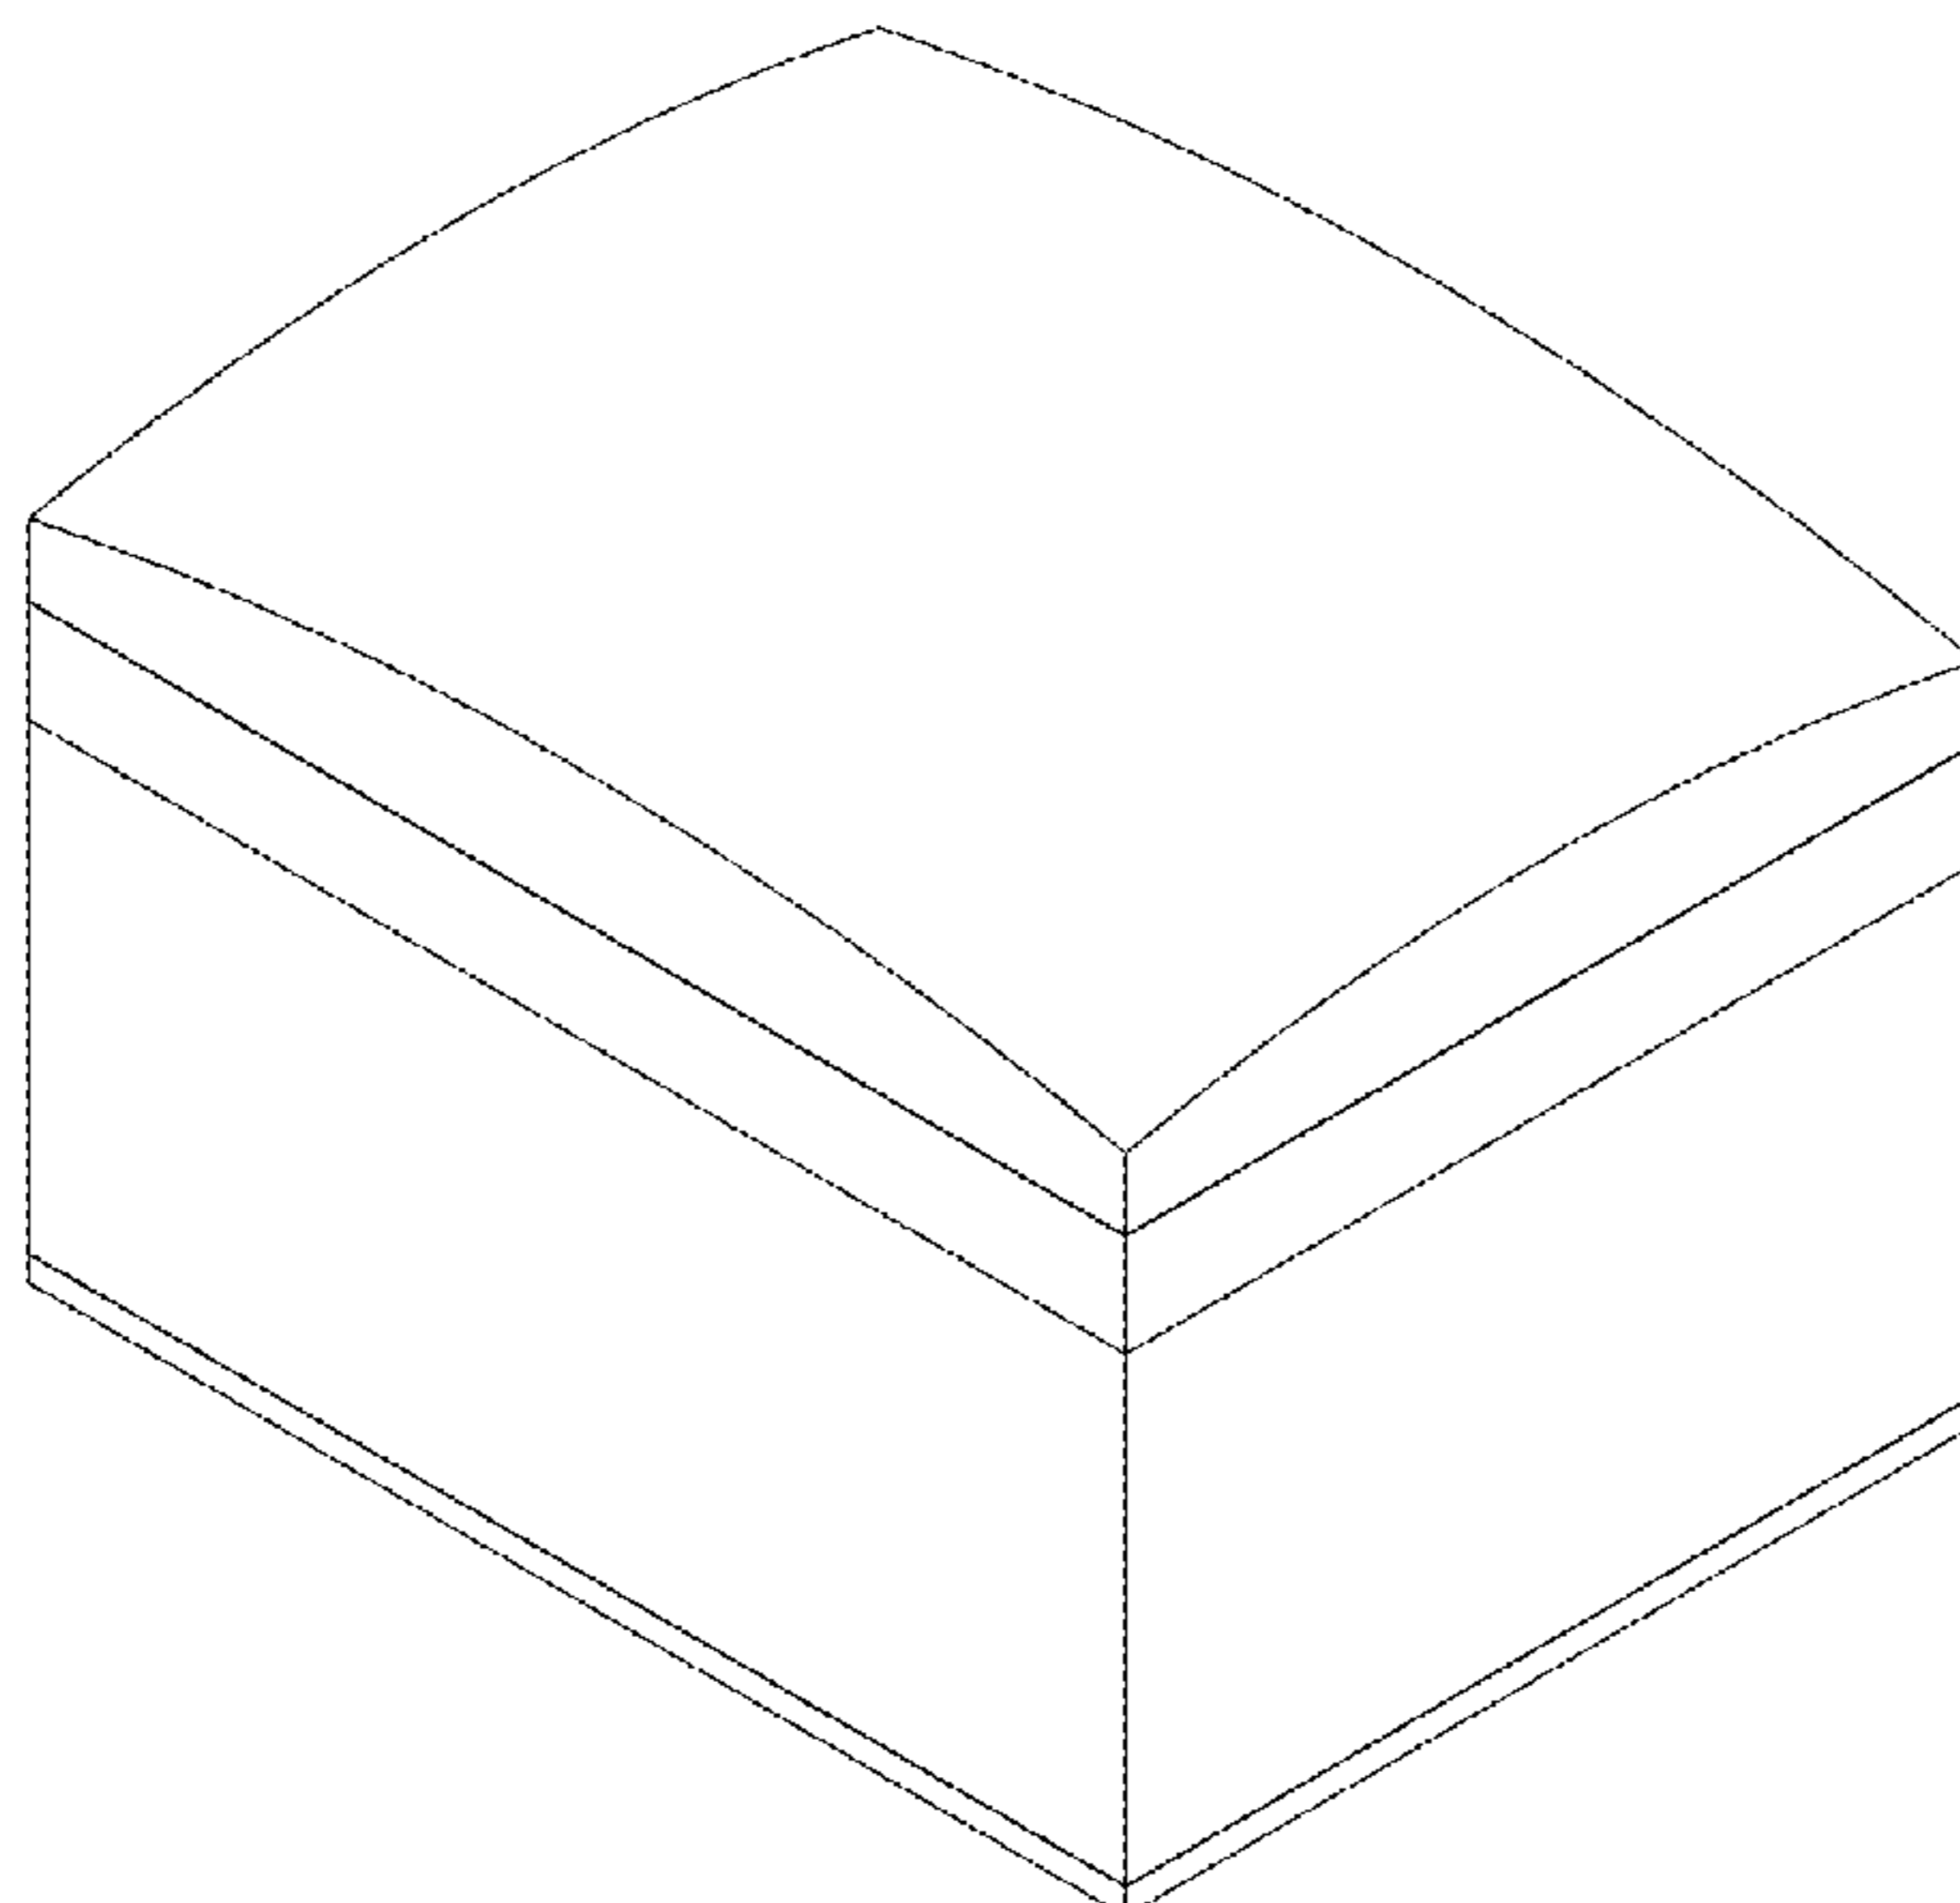

FIG. 4 is a left view of a double layer structure of the condenser according to the present invention;

FIG. 5 is a right view of a double layer structure of the condenser according to the present invention;

FIG. 6 is a top view of a double layer structure of the condenser according to the present invention; and,

FIG. 7 is a bottom view of a double layer structure of the condenser according to the present invention.
