(57) **CLAIM**

The ornamental design for a computer display screen with graphical user interface for displaying medical information, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a computer display screen, showing the new design.

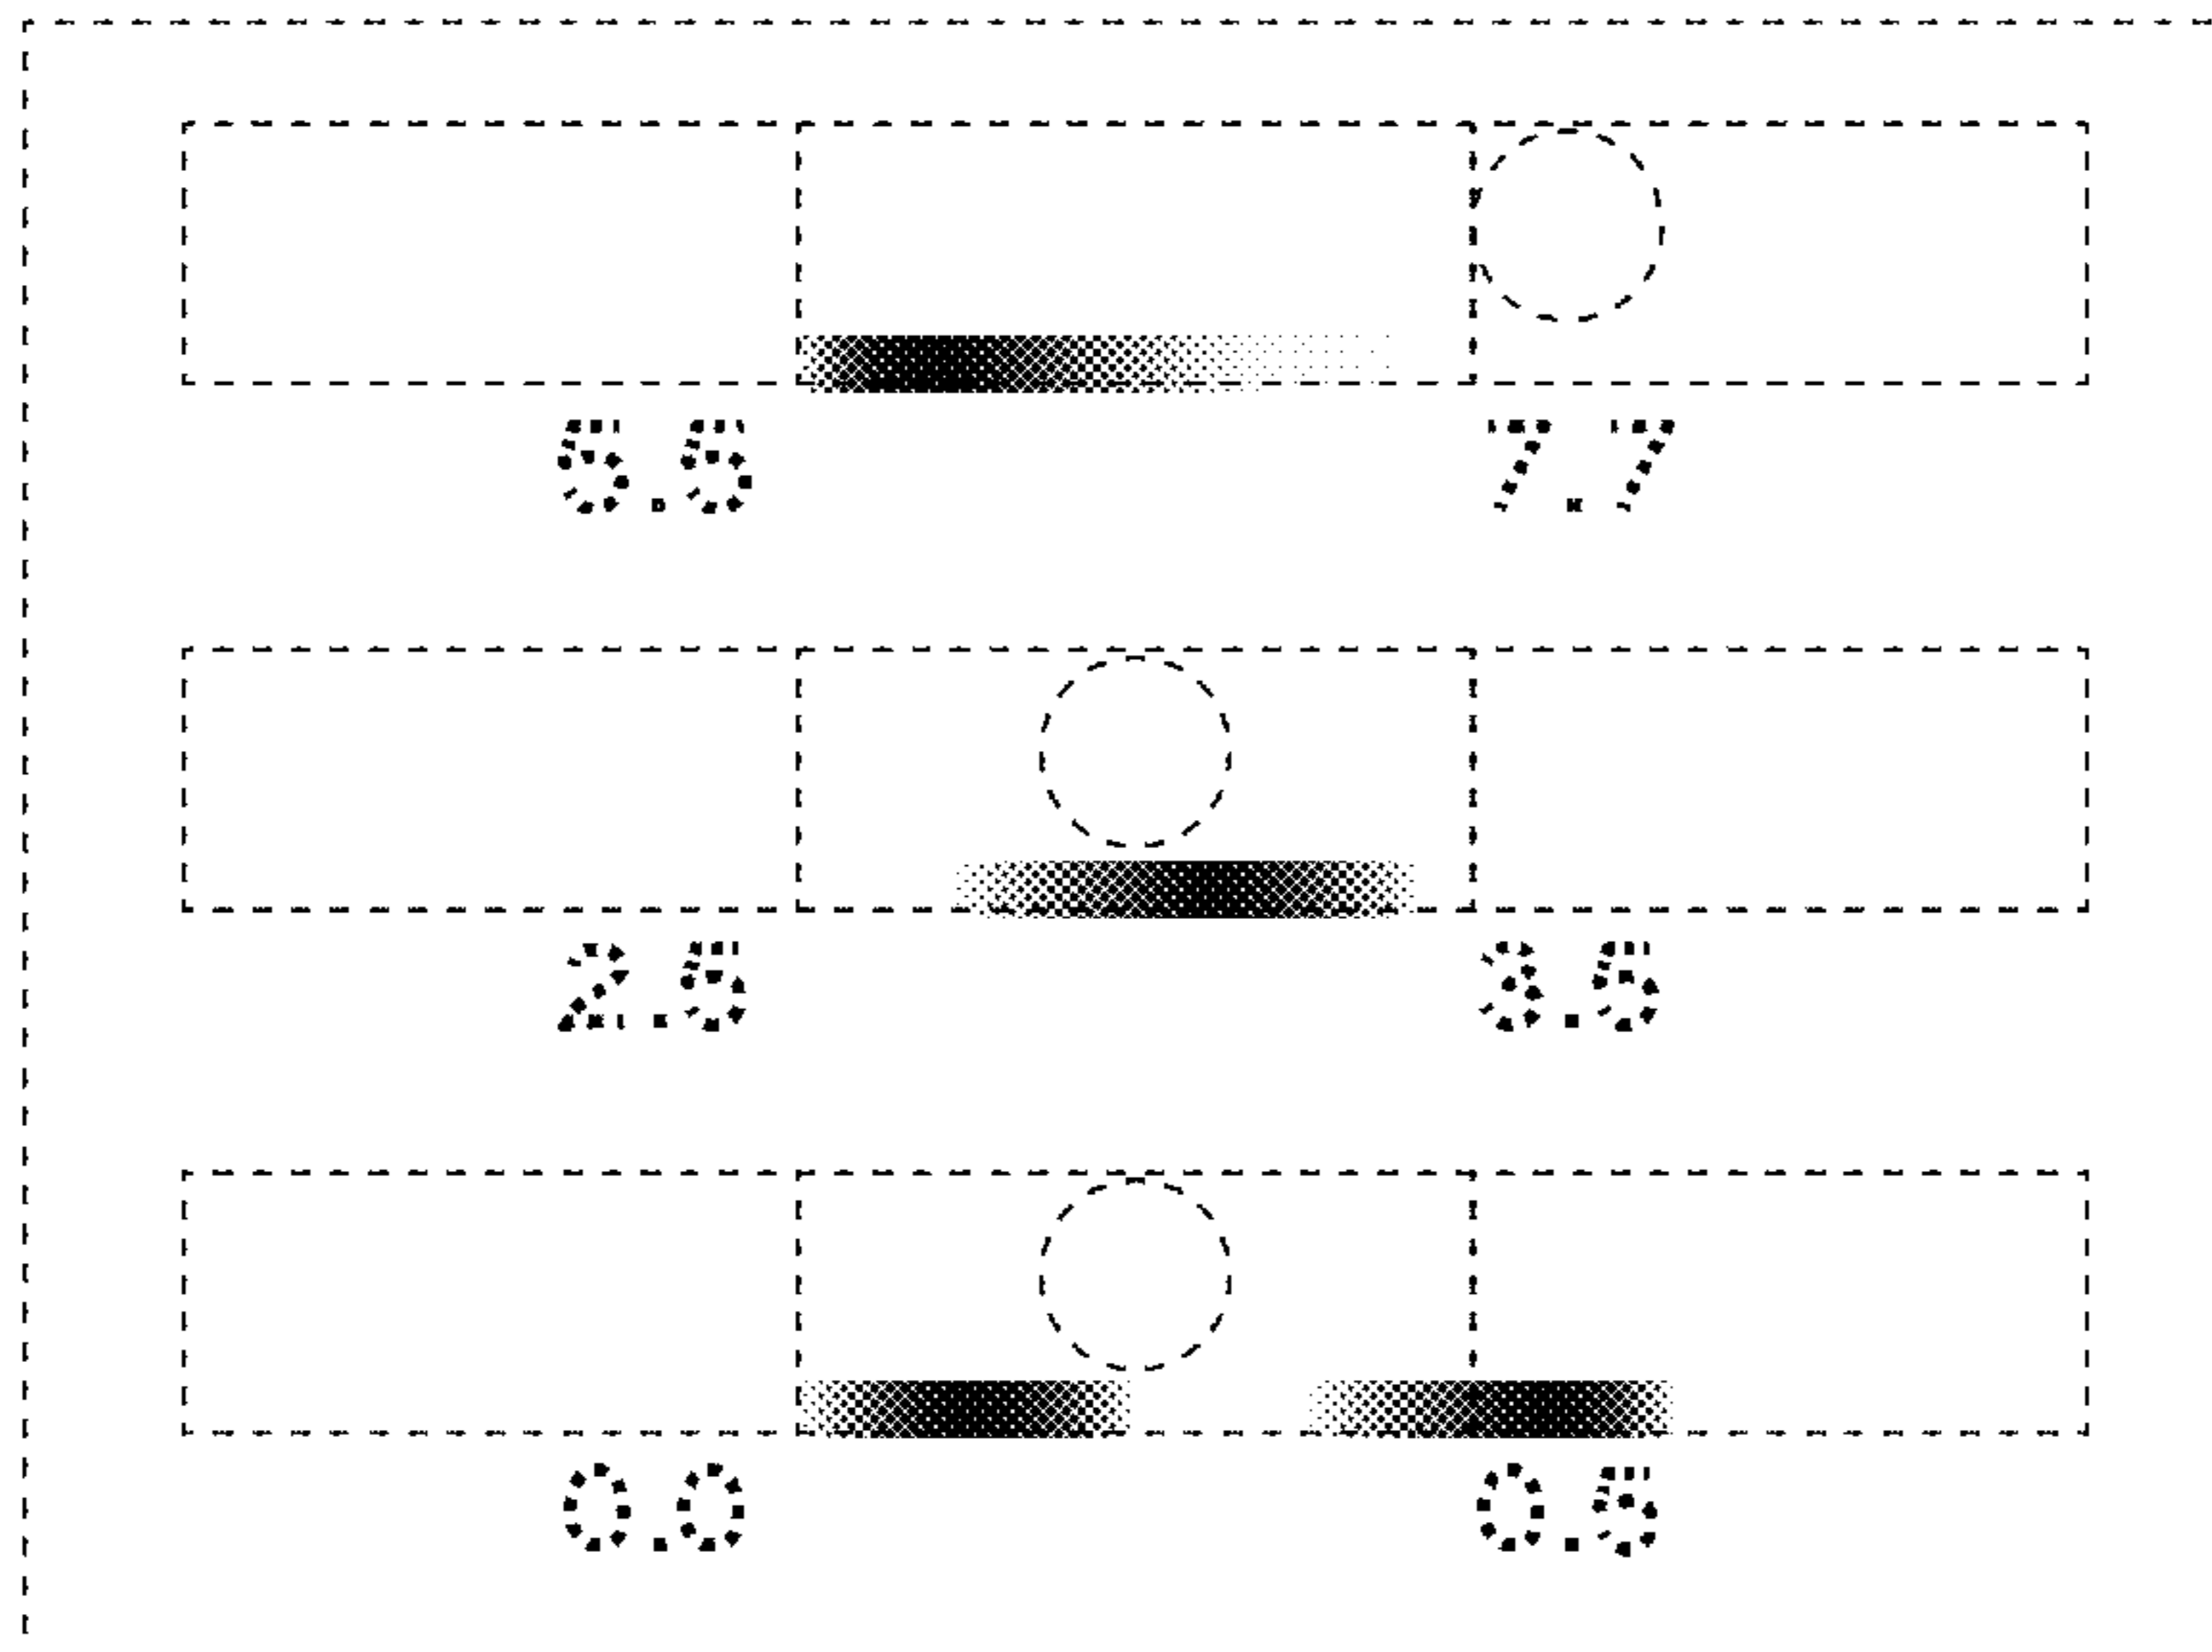

FIG. 2 is a top view of thereof;

FIG. 3 is a left side view thereof; and,

FIG. 4 is an enlarged view of the square lying at the intersection of the horizontal and vertical lines marked 4 in FIG. 1.

The broken lines showing the computer illustrate the environment of the claimed design and form no part thereof. The broken lines showing the display screen and the graphical user interface are included for the purpose of illustrating portions of the article and form no part of the claimed design.

1 Claim, 4 Drawing Sheets
