FIG. 1 is a front view of a first embodiment of a display screen with computer graphical user interface according to the claimed design; and,
FIG. 2 is a front view of a second embodiment of a display screen with computer graphical user interface according to the claimed design.

The outermost long-dashed broken lines illustrate an electronic device, which constitutes the environment of the design and forms no part of the claim. The intermediate-length dashed broken-lines illustrate a display screen and the boundary of the design and forms no part of the claim. The remaining short-dashed broken lines illustrate portions of

See application file for complete search history.
