(57) **CLAIM**

The ornamental design for a license plate camera, as shown and described.

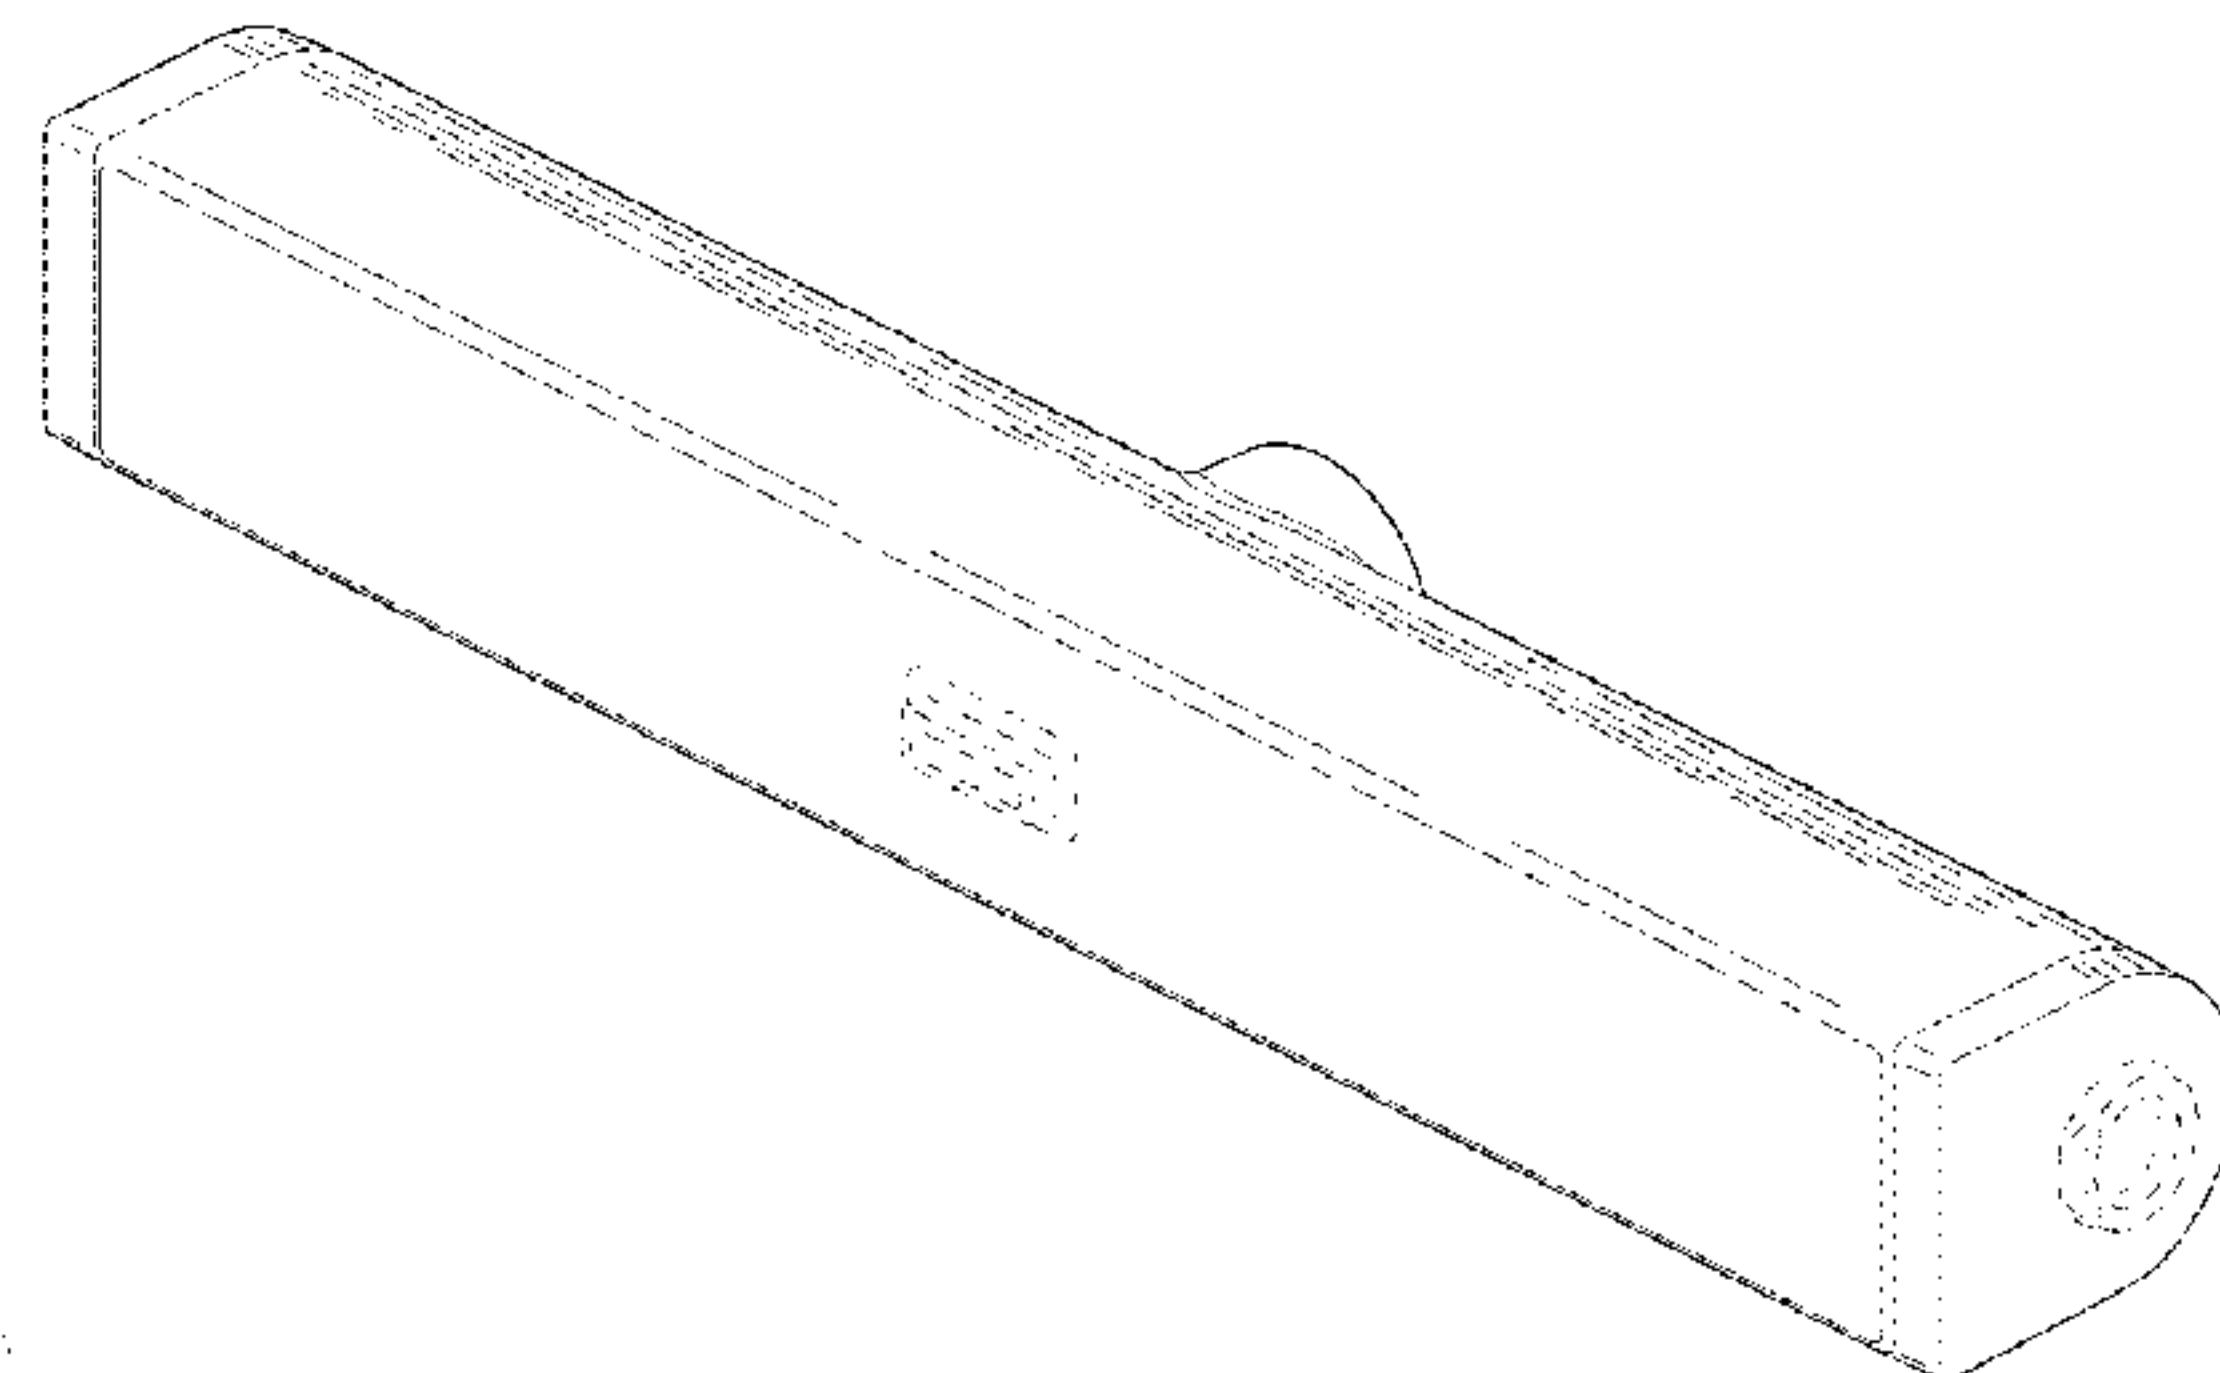

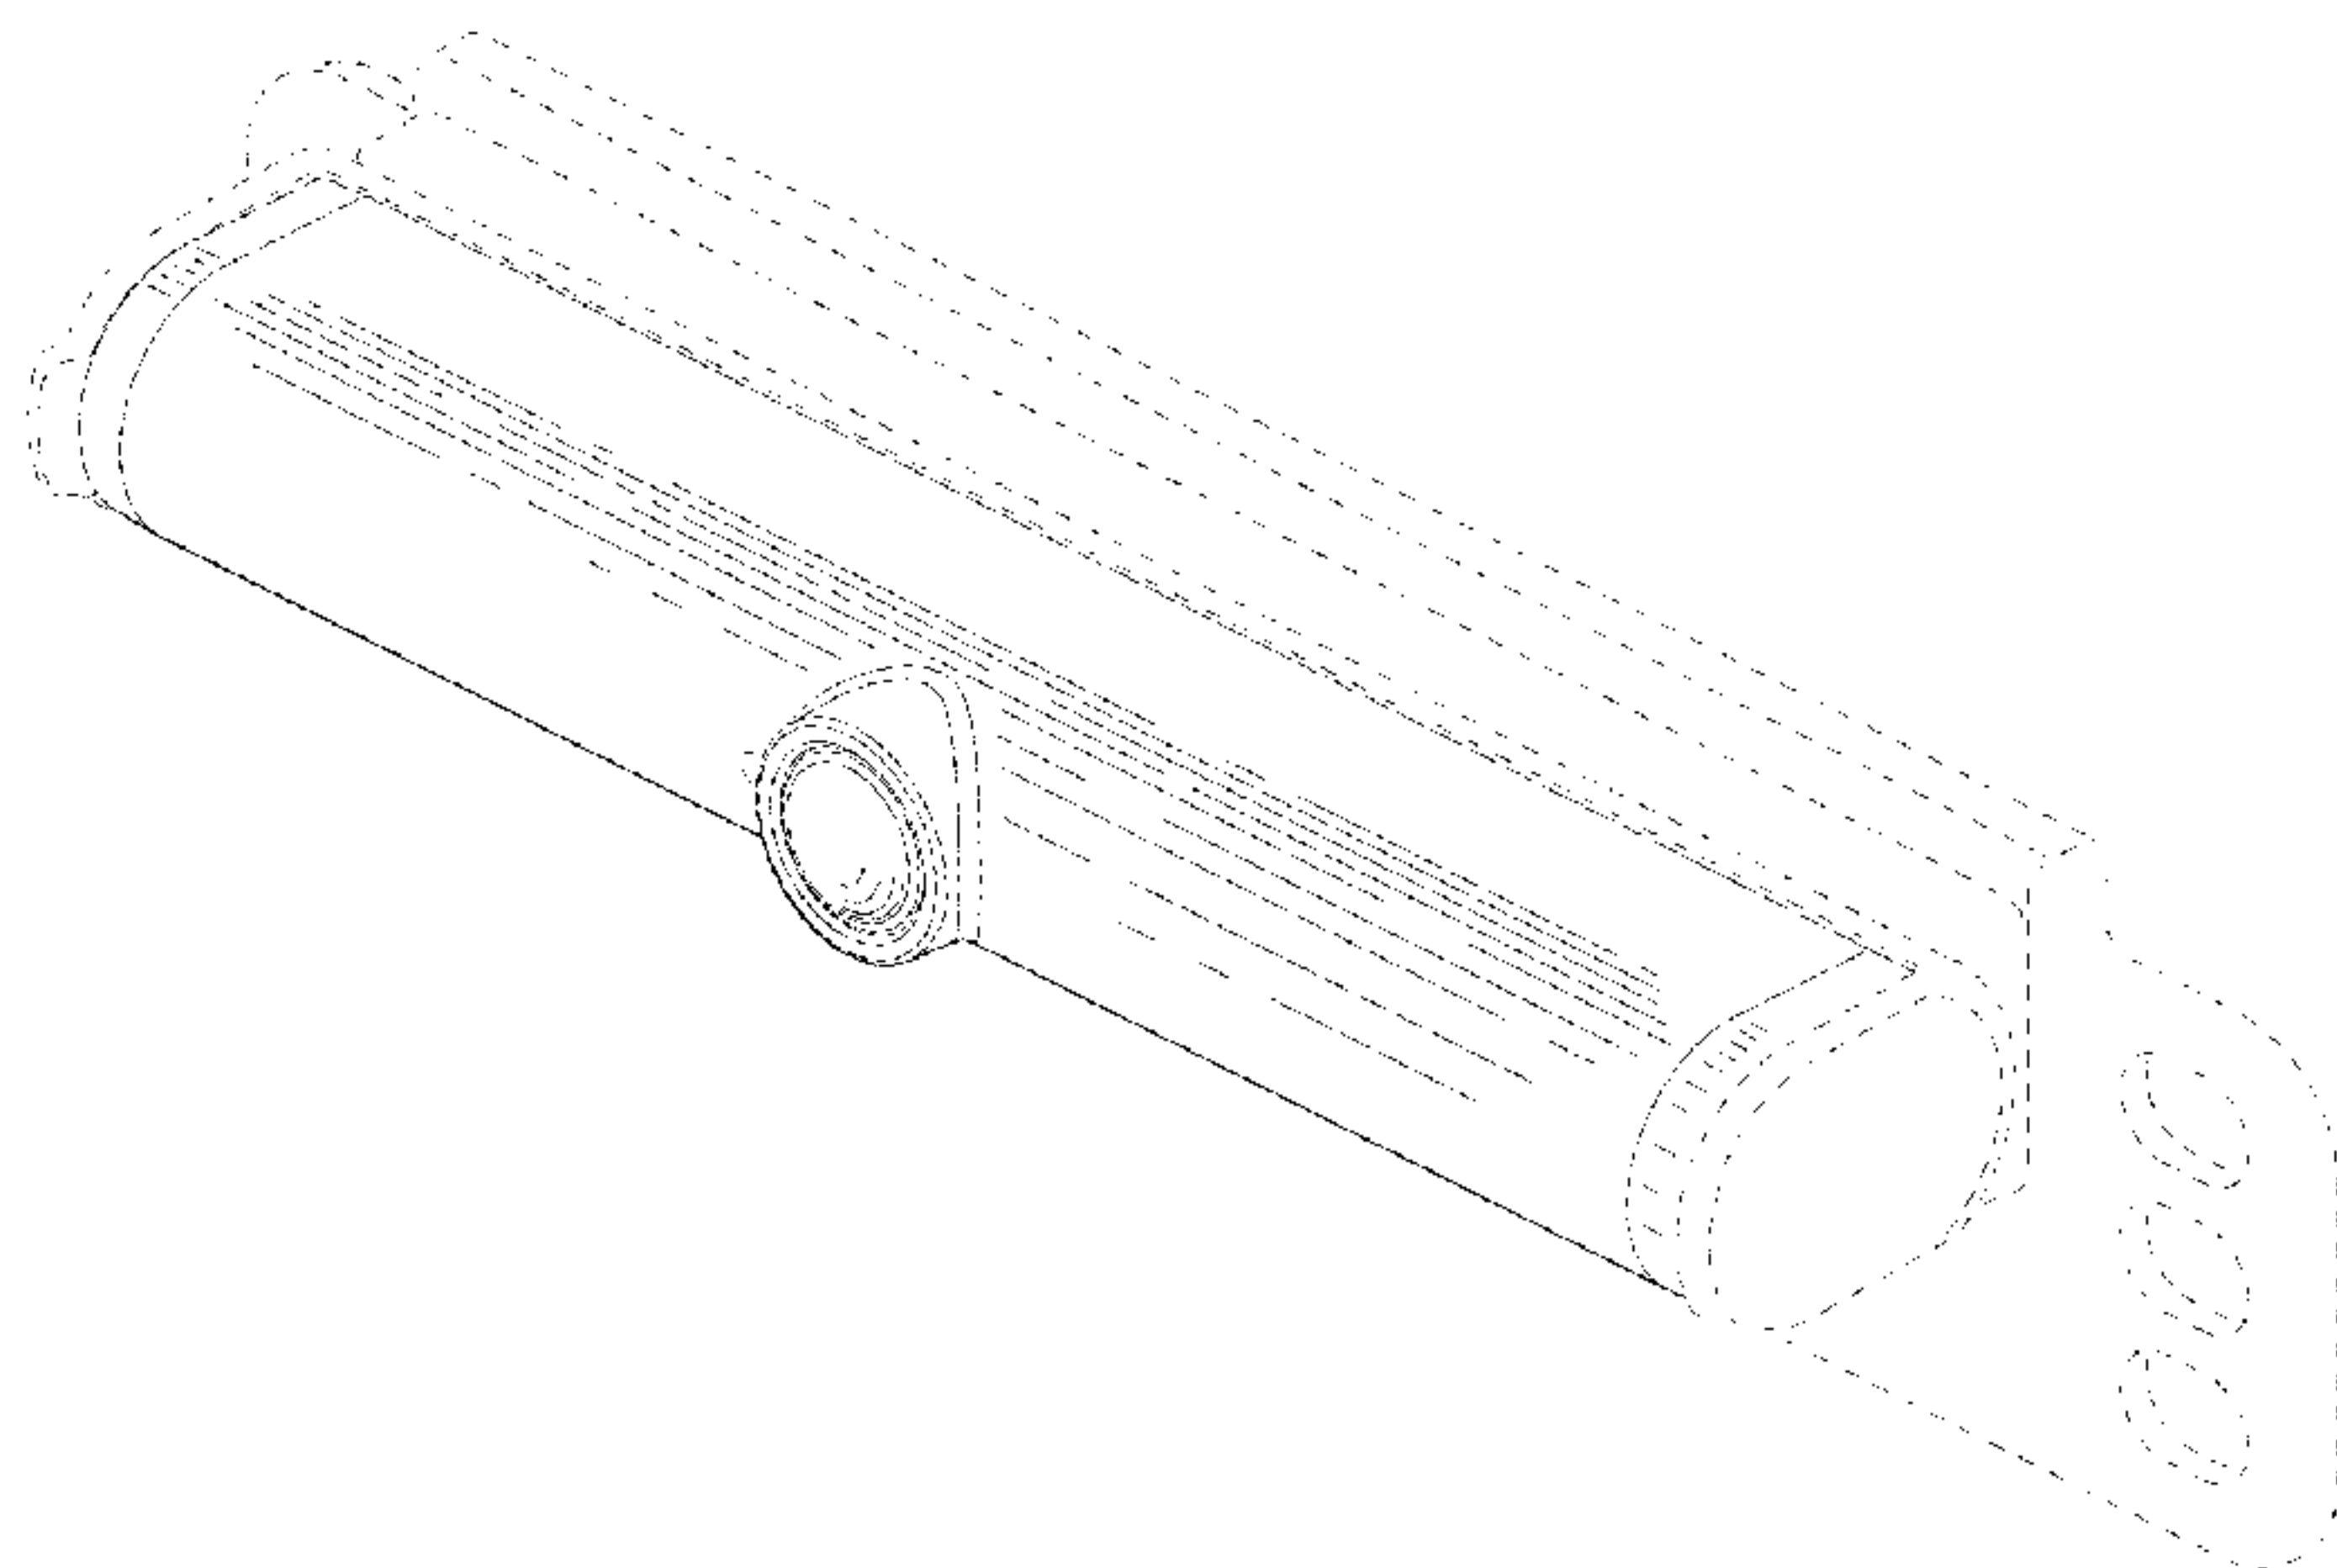

DESCRIPTION

FIG. 1 is a front perspective view of a license plate camera according to the present invention, shown in condition of use with a mount disclosed in broken lines to illustrate an environment;

FIG. 2 is a rear perspective view of the license plate camera; FIG. 3 is a top view of the license plate camera; FIG. 4 is a front view of the license plate camera; FIG. 5 is a bottom view of the license plate camera; FIG. 6 is a rear view of the license plate camera; FIG. 7 is a left side view of the license plate camera; and, FIG. 8 is a right side view of the license plate camera.

The broken lines depict portions of the license plate camera in which the design is embodied that form no part of the claimed design. Additionally, the broken lines showing a mount in FIG. 1 represent environmental structure and form no part of the claimed design.

1 Claim, 3 Drawing Sheets
