(57) **CLAIM**
 The ornamental design for a dapping block and punch, as shown.

DESCRIPTION
 FIG. 1 is a perspective view of a dapping block and punch, showing our new design, wherein the punch is shown in a horizontal storage position;
 FIG. 2 is a right side elevational view thereof, wherein the punch is shown in an upright storage position;
 FIG. 3 is a left side elevational view thereof, wherein the punch is shown in an upright storage position;
 FIG. 4 is a front elevational thereof, wherein the punch is shown in an upright storage position;
 FIG. 5 is a rear elevational thereof, wherein the punch is shown in an upright storage position;
 FIG. 6 is a top plan view thereof, wherein the punch is shown in an upright storage position;
 FIG. 7 is a bottom plan view thereof, wherein the punch is in an upright storage position;
 FIG. 8 is a right side elevational view thereof, wherein the punch is separated from the dapping block;
 FIG. 9 is a left side elevational view thereof, wherein the punch is separated from the dapping block;
 FIG. 10 is a front elevational view thereof, wherein the punch is separated from the dapping block;
 FIG. 11 is a rear elevational view thereof, wherein the punch is separated from the dapping block;
 FIG. 12 is a top plan view thereof, wherein the punch is separated from the dapping block;
 FIG. 13 is a bottom plan view thereof, wherein the punch is separated from the dapping block;
 FIG. 14 is a perspective view thereof, wherein the punch is separated from the dapping block;
 FIG. 15 is a top perspective view thereof, wherein the punch is shown the upright storage position; and,
 FIG. 16 is a bottom perspective view thereof, wherein the punch is separated from the dapping block.
