(57) **CLAIM**

I claim the ornamental designs for a lighting fixture, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of a lighting fixture showing the new design. This fixture has mirror image symmetry taken along a vertical imaginary plane that bisects the canopy.

FIG. 2 is a front elevation view of the lighting fixture of FIG. 1.

FIG. 3 is a right side elevation view of the lighting fixture of FIG. 1, the left side elevation view being a mirror image of the right side; and,

FIG. 4 is a top plan view of the lighting fixture of FIG. 1. The dashed lines on the drawings depict portions of the lighting fixture that form no part of the claimed design. In FIGS. 1-3, the texture on the panel shades is fragmentarily shown for convenience of illustration, it being understood that the texture is continuous over the entire surface of the panel shades.
