(57) **CLAIM**

The ornamental design for a multi-mode facemask, as shown and described.

**DESCRIPTION**

FIG. 1 is a left side elevation view of a multi-mode facemask showing my new invention, shown in the first mode, a fully unfolded face mask, the right side elevation view being a mirror image thereof;

FIG. 2 is a side perspective view of my invention in the first mode;

FIG. 3 is a top plan view of my invention in the first mode;

FIG. 4 is a bottom plan view of my invention in the first mode;

FIG. 5 is a rear elevation view of my invention in the first mode;

FIG. 6 is a front elevation view of my invention in the first mode;

FIG. 7 is a top plan view of my invention in a second mode, a folded empty pocket headband mode;

FIG. 8 is a bottom plan view of my invention in the second mode;

FIG. 9 is a front elevation view of my invention in the second mode;

FIG. 10 is a rear perspective view of my invention in the second mode;

FIG. 11 is a right side elevation view of my invention in the second mode, a left side elevation view being a mirror image thereof;

FIG. 12 is a top front perspective view of my invention in the second mode; and,

FIG. 13 is a top rear perspective view of my invention in a third mode, showing a pocket for storage of a spare lens, goggle, or other items, with the pocket partially open receiving a goggle.

The broken lines indicating a user and a protected goggle are for purposes of illustrating an environment and form no part of the claimed design.
