See application file for complete search history.

DESCRIPTION

FIG. 1 is a front view of an electronic device having a display screen with animated graphical user interface applied to the display screen, showing a first image of the claimed design;

FIG. 2 is a second image thereof;

FIG. 3 is a third image thereof;

FIG. 4 is a fourth image thereof; and,

FIG. 5 is a fifth image thereof.

The outer dashed broken lines in the figures show an electronic device having a display screen, and form no part of the claimed design. The other dashed broken lines in the figures show portions of the animated graphical user interface that form no part of the claimed design.

The appearance of the animated image sequentially transitions between the images shown in FIGS. 1-5. The process or period in which one image transitions to another forms no part of the claimed design.
