(57) **CLAIM**

The ornamental design for a remote control device, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or application publication with color drawing(s) will be provided by the Patent Office upon request and payment of the necessary fee. FIG. 1 is a front view of a remote control device according to a first embodiment.

FIG. 2 is a rear view of the remote control device shown in FIG. 1.

FIG. 3 is a top view of the remote control device shown in FIG. 1.

FIG. 4 is a bottom view of the remote control device shown in FIG. 1.

FIG. 5 is a left side view of the remote control device shown in FIG. 1.

FIG. 6 is a right side view of the remote control device shown in FIG. 1.

FIG. 7 is a front view of a remote control device according to a second embodiment.

FIG. 8 is a rear view of the remote control device shown in FIG. 7.

FIG. 9 is a top view of the remote control device shown in FIG. 7.

FIG. 10 is a bottom view of the remote control device shown in FIG. 7.

FIG. 11 is a left side view of the remote control device shown in FIG. 7 with the knobs rotated to an alternate position; and,

FIG. 12 is a right side view of the remote control device shown in FIG. 7.

(Continued)

As shown in the figures, the remote control device includes knobs that are movable between respective positions shown in the drawings, including the respective positions shown in FIGS. 8, 9 and 11.
