(57) **CLAIM**

The ornamental design for a removable holster, as shown and described.

DESCRIPTION

FIG. 1 is an upper right perspective view of a removable holster of the present invention;
FIG. 2 is a top plan view of a removable holster of the present invention;
FIG. 3 is an elevated right side view of a removable holster of the present invention;
FIG. 4 is an elevated front view of the removable holster of the present invention;

FIG. 5 is an elevated rear view of the removable holster of the present invention;
FIG. 6 is an upper right perspective view of the embodiment of the removable holster of the present invention with a weapon and clip inserted;
FIG. 7 is a top plan view of the embodiment of the removable holster of the present invention with a weapon and clip inserted;
FIG. 8 is an elevated right side view of the embodiment of the removable holster of the present invention with a weapon and clip inserted;
FIG. 9 is an elevated front view of the embodiment of the removable holster of the present invention with a weapon and clip inserted;
FIG. 10 is an elevated rear view of the embodiment of the removable holster of the present invention with a weapon and clip inserted;
FIG. 11 is an elevated right side view of a second embodiment of the removable holster of the present invention;
FIG. 12 is a top plan view of a second embodiment of the removable holster of the present invention;
FIG. 13 is an elevated right side view of a second embodiment of the removable holster of the present invention;
FIG. 14 is an elevated front view of a second embodiment of the removable holster of the present invention;
FIG. 15 is an elevated rear view of a second embodiment of the removable holster of the present invention;
FIG. 16 is an elevated right side view of a second embodiment of the removable holster of the present invention with a weapon and clip inserted;
FIG. 17 is a top plan view of a second embodiment of the removable holster of the present invention with a weapon and clip inserted;
FIG. 18 is an elevated right side view of a second embodiment of the removable holster of the present invention with a weapon and clip inserted;
FIG. 19 is an elevated front view of a second embodiment of the removable holster of the present invention with a weapon and clip inserted;
FIG. 20 is an elevated rear view of a second embodiment of the removable holster of the present invention with a weapon and clip inserted;

(Continued)

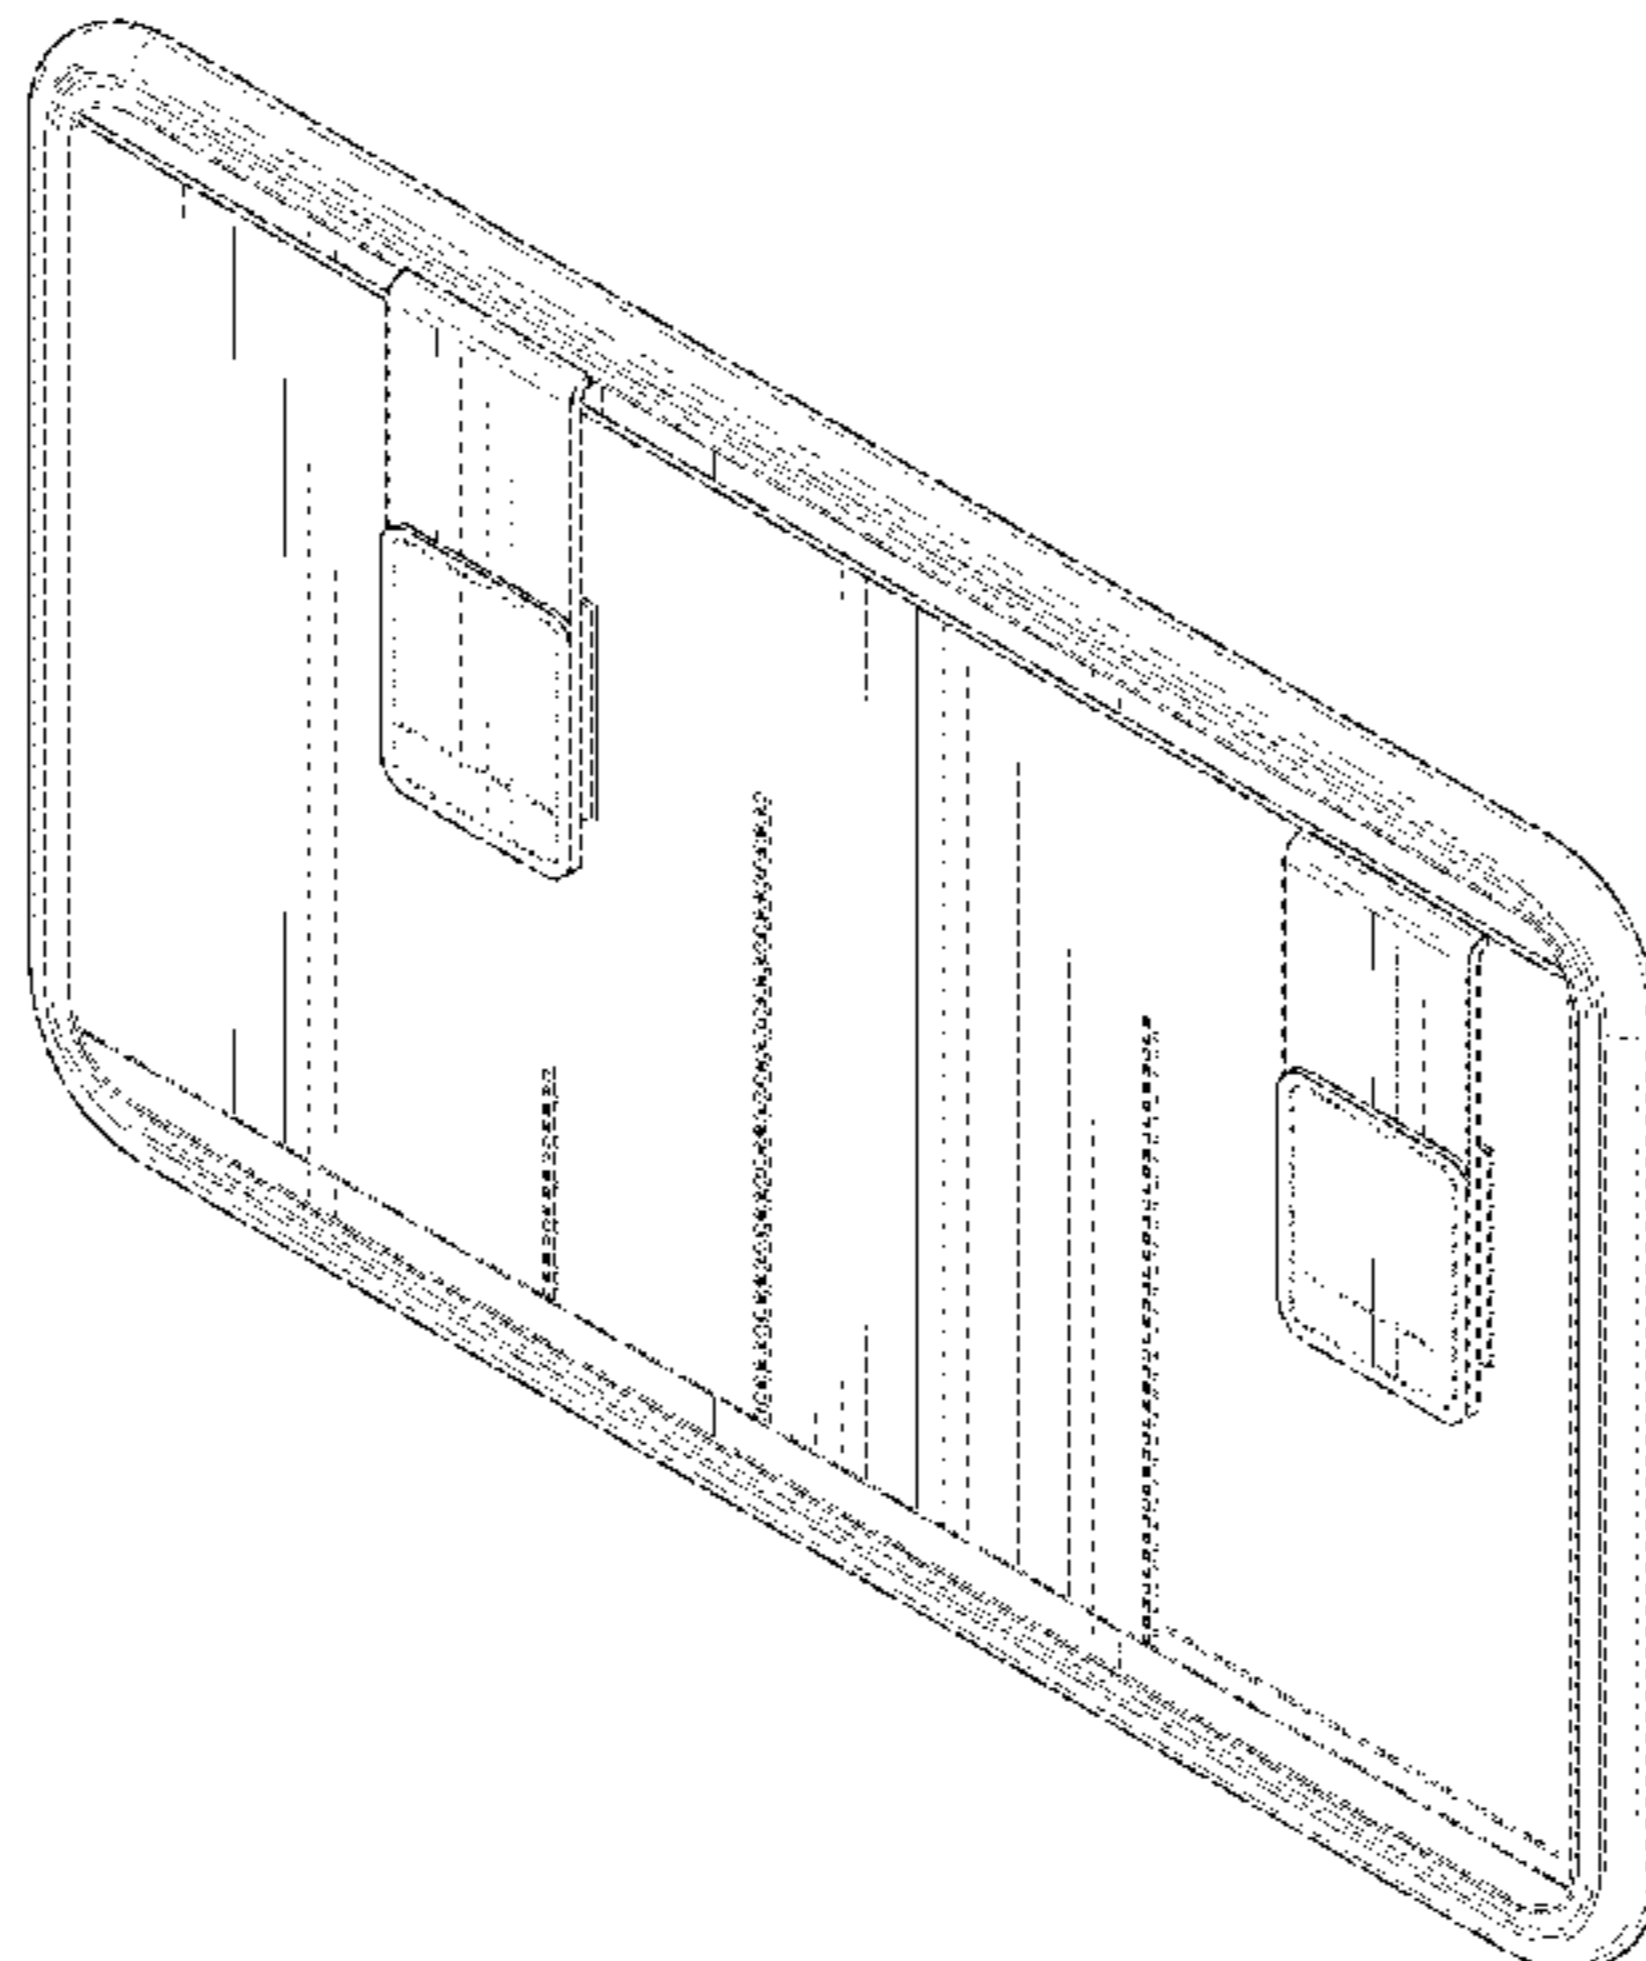

FIG. 21 is an elevated right side view of a third embodiment of the removable holster of the present invention;
 FIG. 22 is a top plan view of a third embodiment of the removable holster of the present invention;
 FIG. 23 is an elevated right side view of a third embodiment of the removable holster of the present invention;
 FIG. 24 is an elevated front view of a third embodiment of the removable holster of the present invention;
 FIG. 25 is an elevated rear view of a third embodiment of the removable holster of the present invention;
 FIG. 26 is an elevated right side view of a third embodiment of the removable holster of the present invention with a weapon and clip inserted;
 FIG. 27 is a top plan view of a third embodiment of the removable holster of the present invention with a weapon and clip inserted;
 FIG. 28 is an elevated right side view of a third embodiment of the removable holster of the present invention with a weapon and clip inserted;
 FIG. 29 is an elevated front view of a third embodiment of the removable holster of the present invention with a weapon and clip inserted;
 FIG. 30 is an elevated rear view of a third embodiment of the removable holster of the present invention with a weapon and clip inserted;
 FIG. 31 is an elevated right side view of a fourth embodiment of the removable holster of the present invention;
 FIG. 32 is a top plan view of a fourth embodiment of the removable holster of the present invention;
 FIG. 33 is an elevated right side view of a fourth embodiment of the removable holster of the present invention;
 FIG. 34 is an elevated front view of a fourth embodiment of the removable holster of the present invention; and,
 FIG. 35 is an elevated rear view of a fourth embodiment of the removable holster of the present invention.
 The broken lines in the figures are for contextual purposes or show the environment and form no part of the claimed design.
 The break lines indicate that no particular length is claimed, and any portion shown between the breaks forms no part of the claimed design.
