(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

The file of this patent contains a least one drawing executed in color. Copies of this patent with color drawings will be provided by the United States Patent and Trademark Office upon request and payment of the necessary fee.

FIG. **1** is a front view of a display screen with graphical user interface showing a first embodiment of our new design;

FIG. **2** is a front view of a display screen with graphical user interface showing a second embodiment of our new design;

FIG. **3** is a front view of a display screen with graphical user interface showing a third embodiment of our new design;

FIG. **4** is a front view of a display screen with graphical user interface showing a fourth embodiment of our new design;

FIG. **5** is a front view of a display screen with graphical user interface showing a fifth embodiment of our new design; and,

FIG. **6** is a front view of a display screen with graphical user interface showing a sixth embodiment of our new design.

The dot-dash broken lines illustrate the display screen and form no part of the claimed design.
