(57) **CLAIM**

The ornamental design for a firearm holster support, as
shown and described.

DESCRIPTION

FIG. 1 is a top perspective view of a firearm holster support
in accordance with an embodiment of the present design.

FIG. 2 is a top view for the firearm holster support in
accordance with the embodiment of the present design.

FIG. 3 is a bottom view for the firearm holster support in
accordance with the embodiment of the present design.

FIG. 4 is a right side view of the firearm holster support in
accordance with the embodiment of the present design.

FIG. 5 is a left side view for the firearm holster support in
accordance with the embodiment of the present design.

FIG. 6 is a front view for the firearm holster support in
accordance with the embodiment of the present design.

FIG. 7 is a rear view for the firearm holster support in
accordance with the embodiment of the present design; and,

FIG. 8 is a front view of an exemplary firearm holster
suitable for having the firearm holster support attached
thereto according to one embodiment.

The features shown in broken lines in the various figures are
for illustrating environmental structure and form no part of
the claimed design.

The firearm holster support can serve to support a firearm
with respect to a firearm holster. The firearm holster support
can also be referred to as a barrel support member or a barrel
shroud. Additional details on firearm holster and firearm
holster supports are provided in U.S. Patent application Ser.
No. 16/143,443, filed Sep. 26, 2018, and entitled “Barrel
Held Firearm Carrier,” which is hereby incorporated herein
by reference.

The firearm holster support can serve to support a firearm
with respect to a firearm holster. The firearm holster support
can also be referred to as a barrel support member or a barrel
shroud. Additional details on firearm holster and firearm
holster supports are provided in U.S. Patent application Ser.
No. 16/143,443, filed Sep. 26, 2018, and entitled “Barrel
