(57) **CLAIM**

The ornamental design for a display screen with shelf folders graphical user interface or portion thereof, as shown and described.

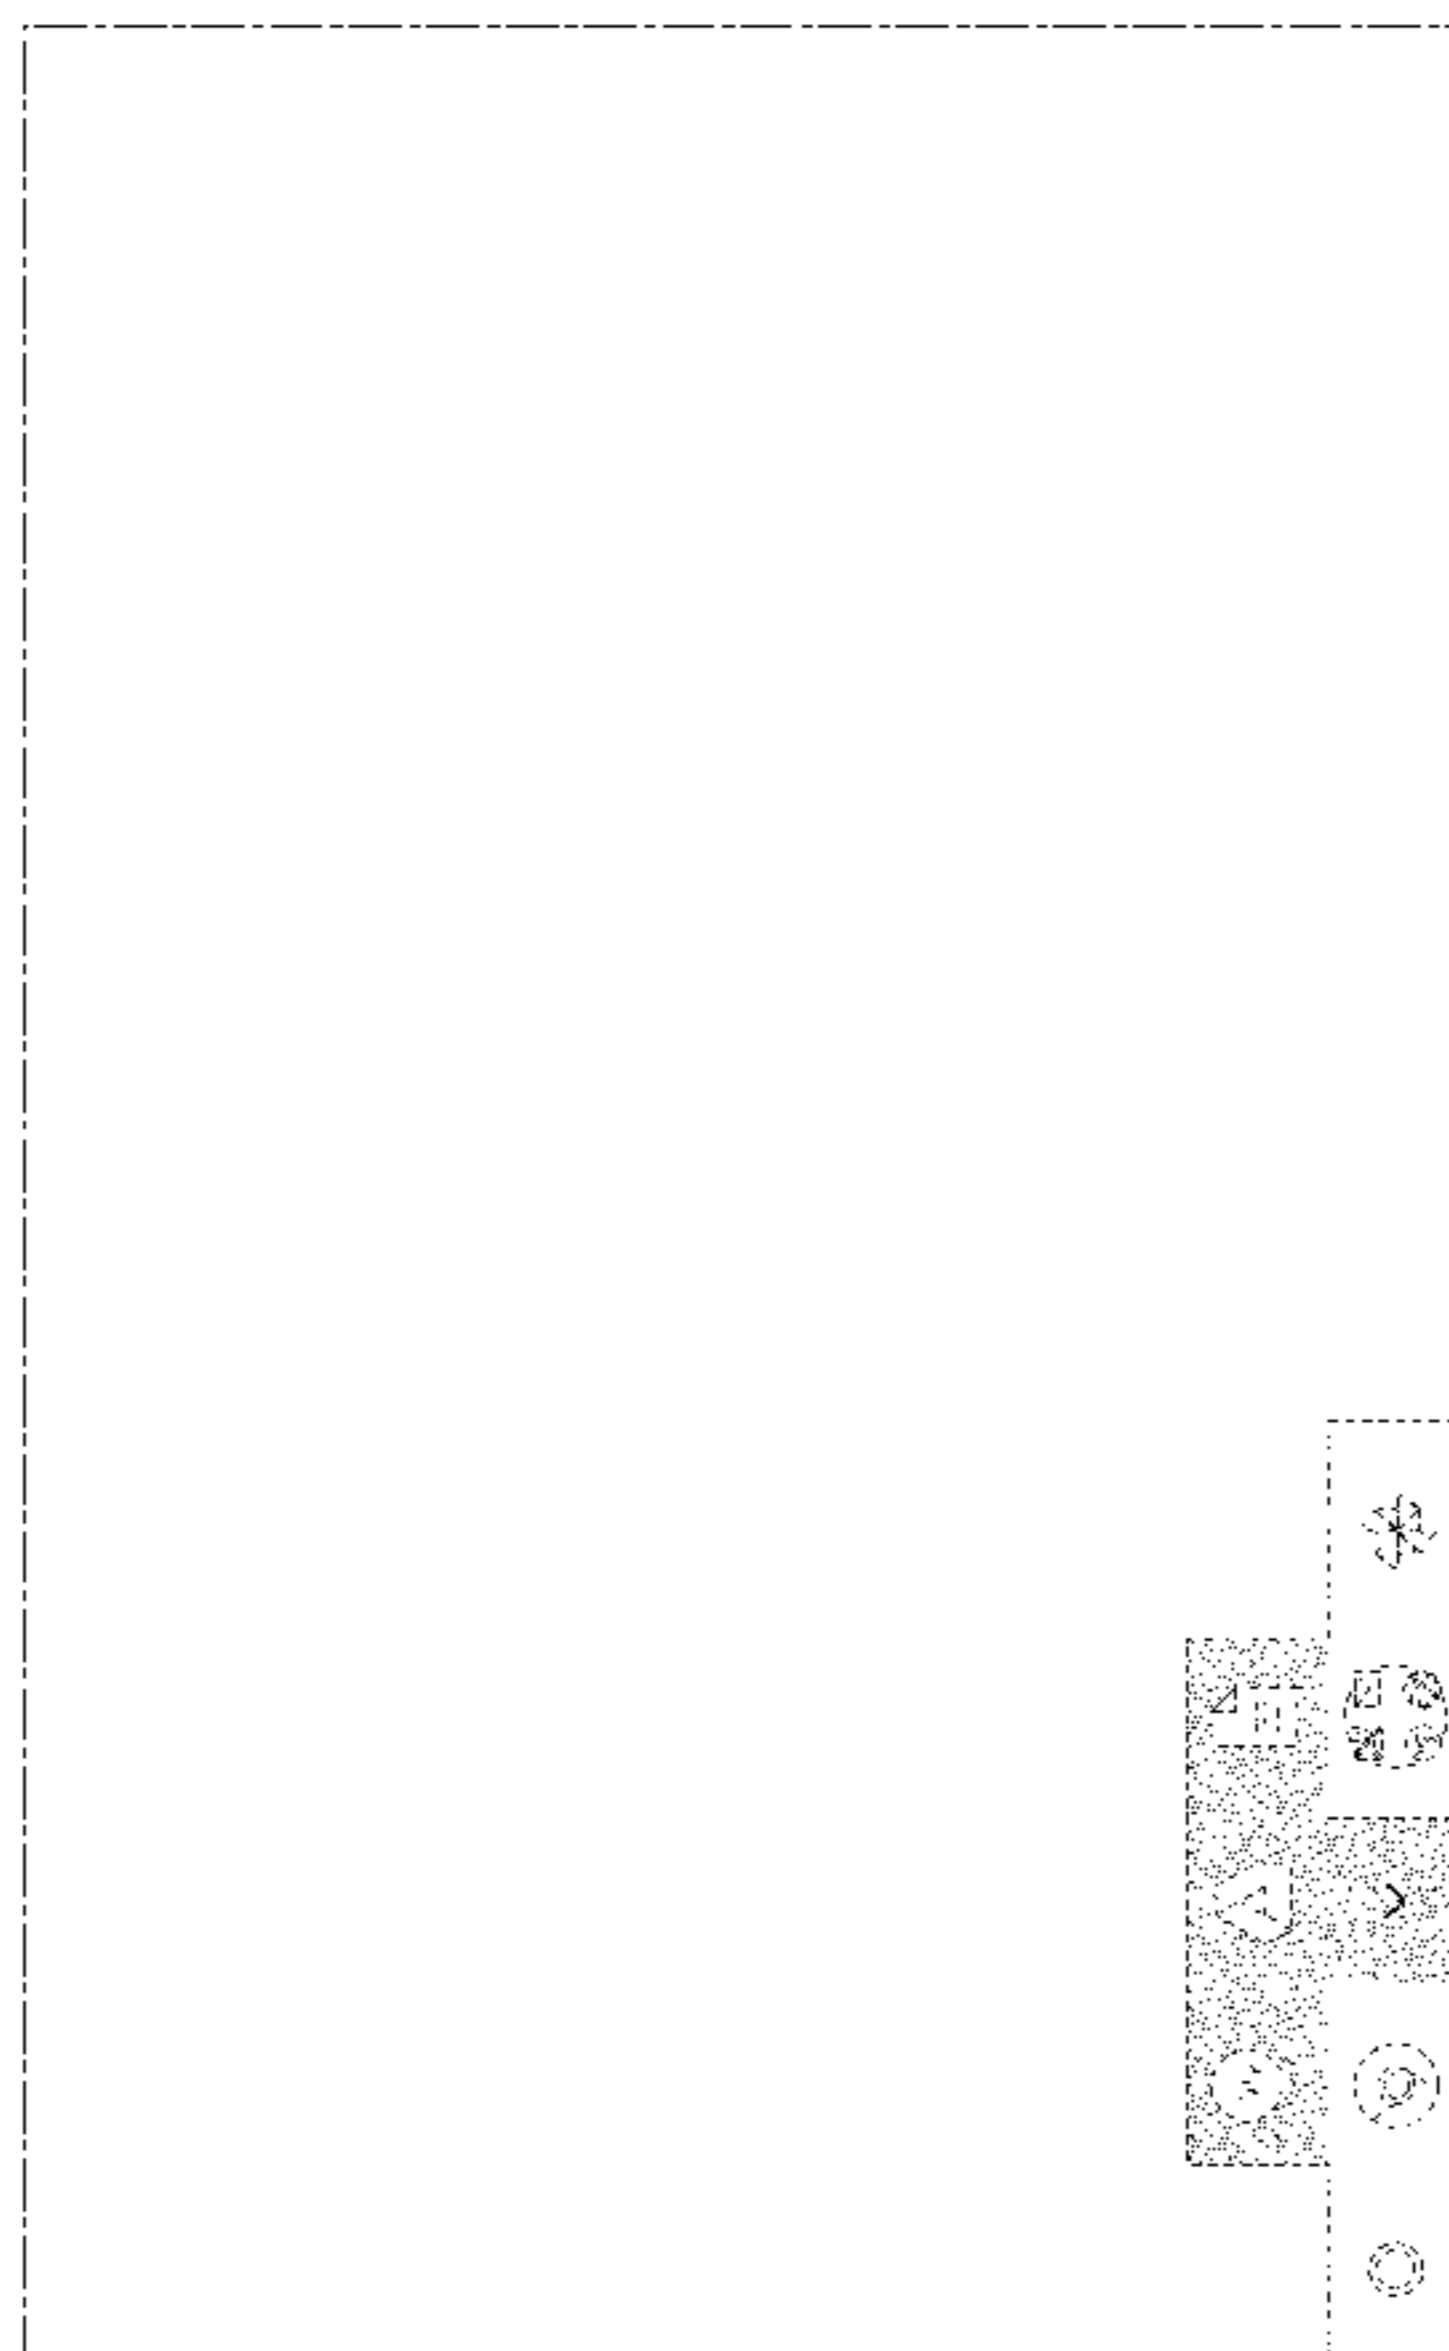

DESCRIPTION

The FIGURE is a front view of an image of a display screen with a shelf folders graphical user interface or portion thereof, according to our design.

The dash-dot broken line rectangle illustrates a display boundary of a display screen. The dash-dot broken line rectangle itself forms no part of the claimed design. All other broken lines show elements of the graphical user interface and form no part of the claimed design.

The stipple fill shows a contrast in appearance and is claimed subject matter.
