(57) **CLAIM**

The ornamental design for a medical instrument, instrument and tool for laboratory use, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view from above, first position of a medical instrument, instrument and tool for laboratory use; FIG. 2 is a perspective view from below, first position of the medical instrument, instrument and tool for laboratory use of FIG. 1;

FIG. 3 is a left side view, first position of the medical instrument, instrument and tool for laboratory use of FIG. 1; FIG. 4 is a right side view, first position of the medical instrument, instrument and tool for laboratory use of FIG. 1; FIG. 5 is a top view, first position of the medical instrument, instrument and tool for laboratory use of FIG. 1;

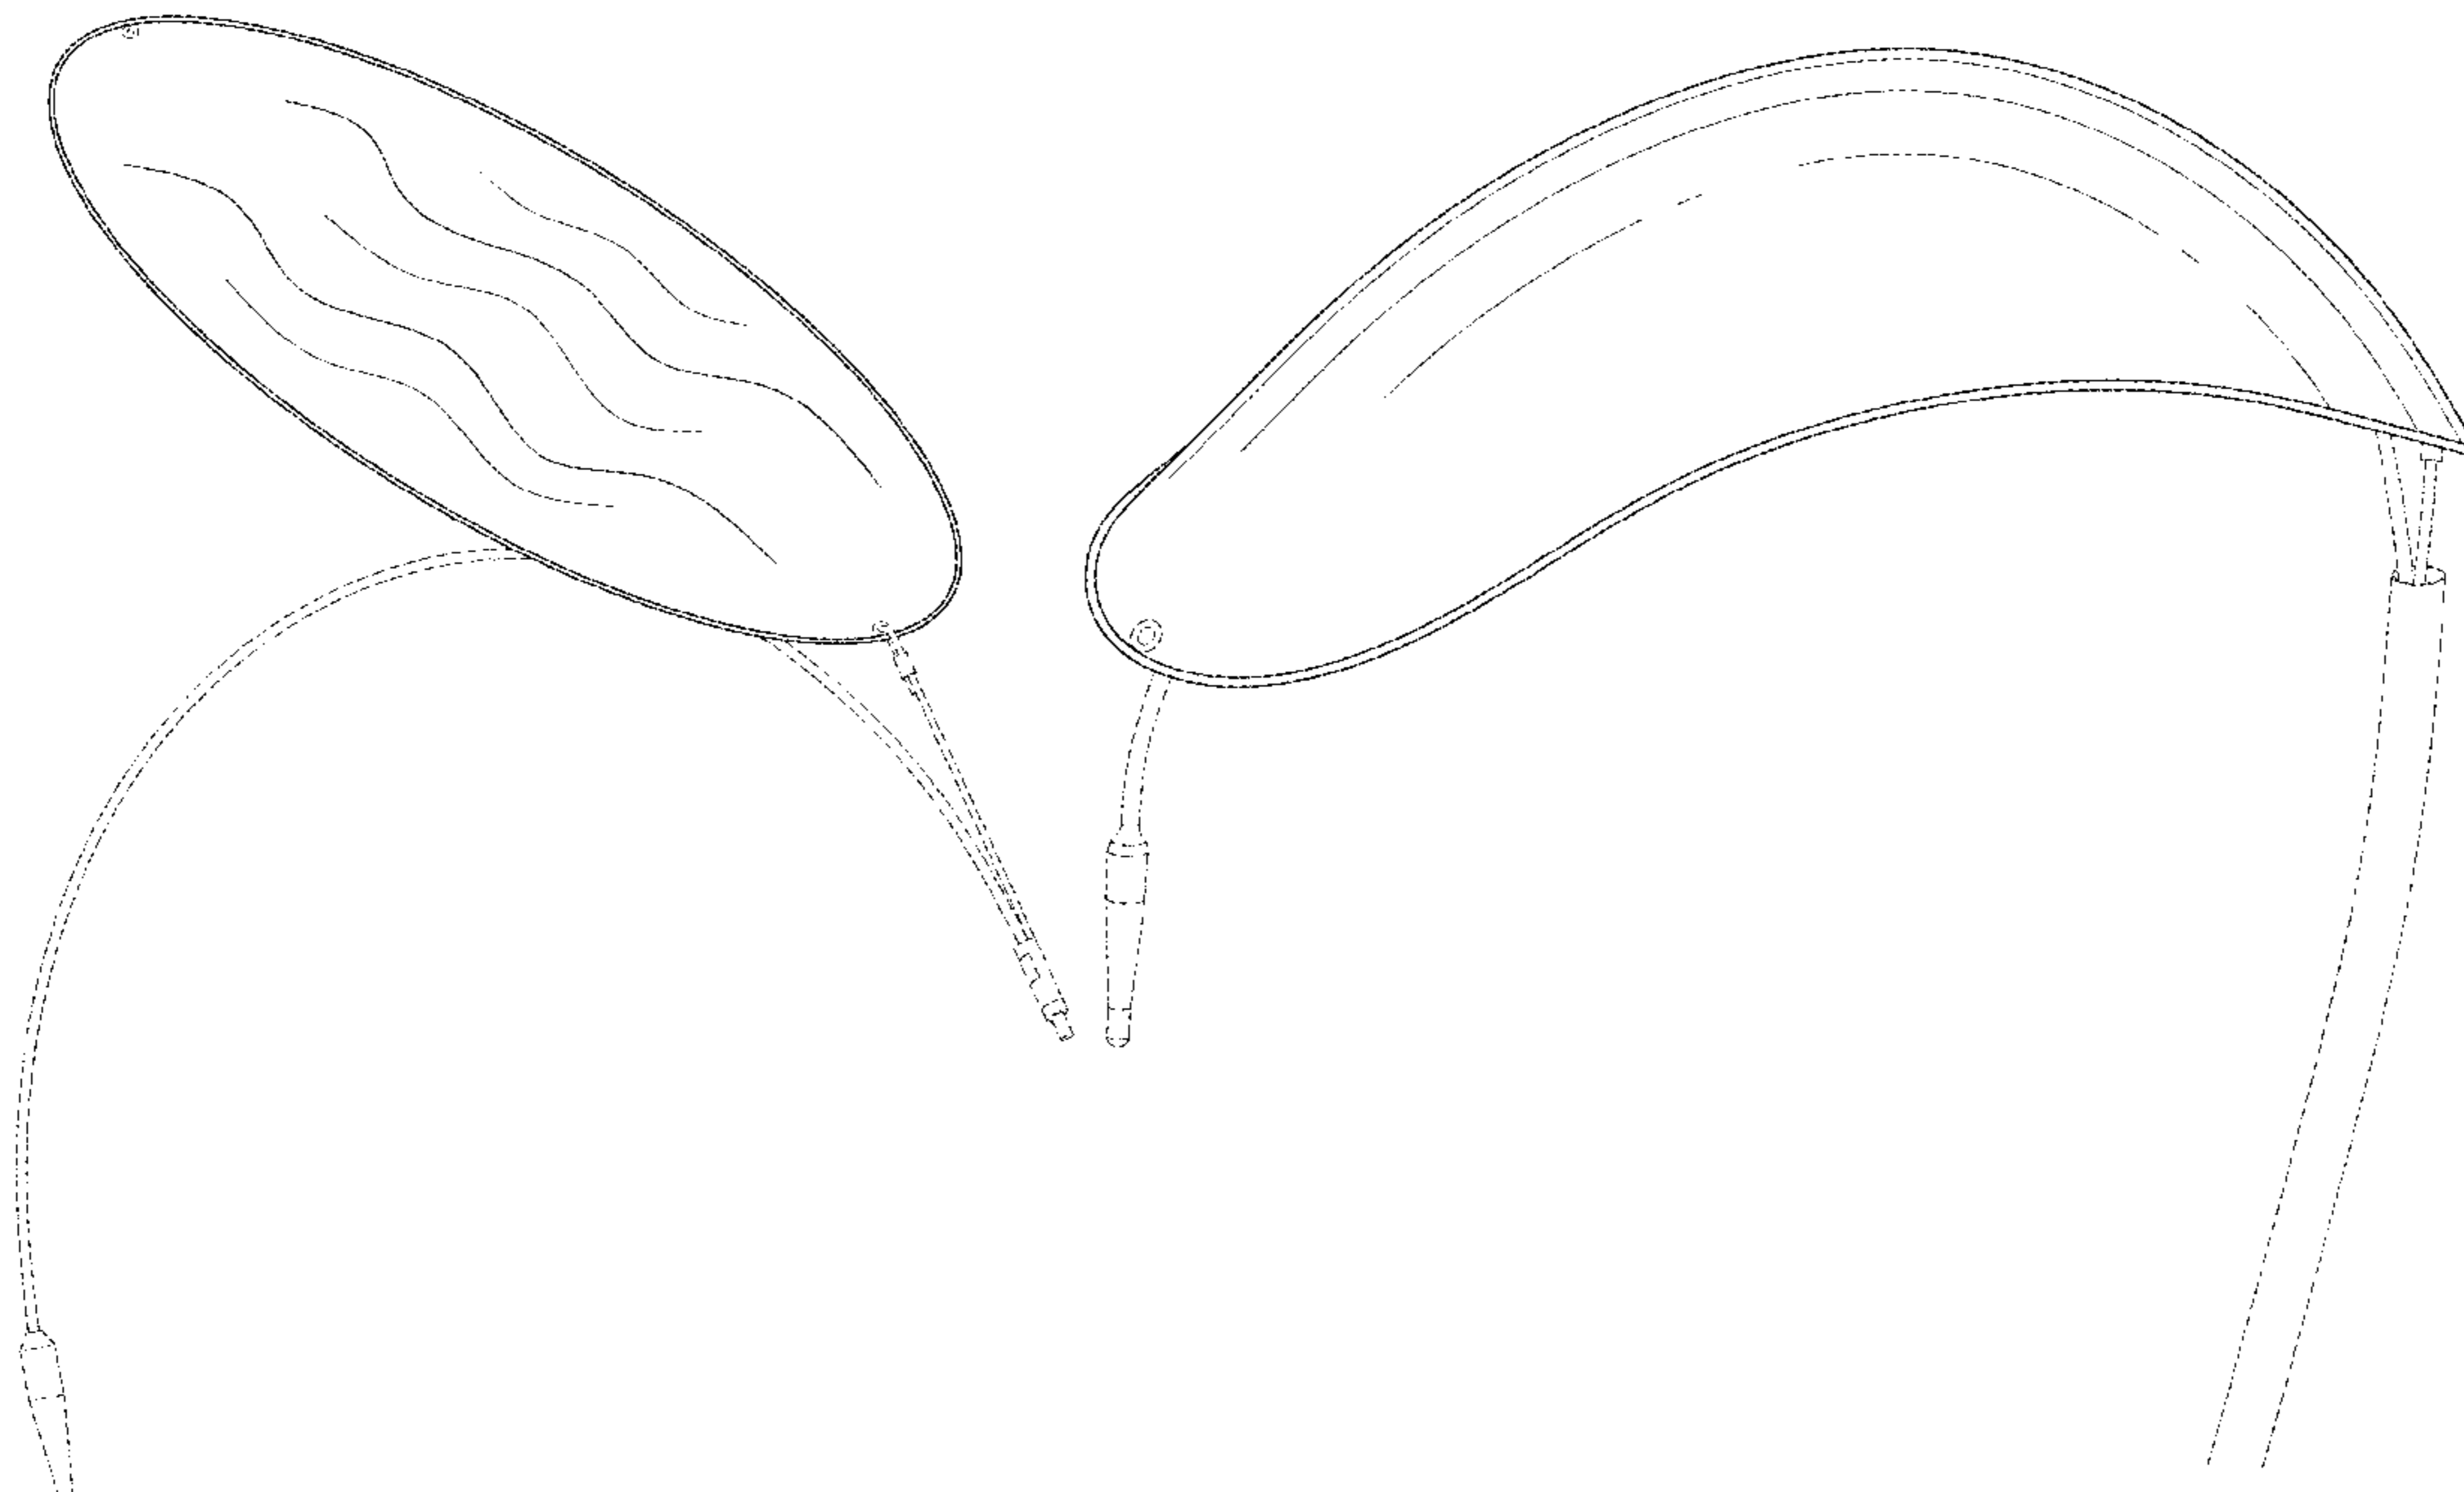

FIG. 6 is a bottom view, first position of the medical instrument, instrument and tool for laboratory use of FIG. 1; FIG. 7 is a front perspective view, second position of the medical instrument, instrument and tool for laboratory use of FIG. 1;

FIG. 8 is a perspective view from below, second position of the medical instrument, instrument and tool for laboratory use of FIG. 1;

FIG. 9 is a right side view, second position of the medical instrument, instrument and tool for laboratory use of FIG. 1; FIG. 10 is a left side view, second position of the medical instrument, instrument and tool for laboratory use of FIG. 1; FIG. 11 is a top view, second position of the medical instrument, instrument and tool for laboratory use of FIG. 1; and,

FIG. 12 is a rear view, second position of the medical instrument, instrument and tool for laboratory use of FIG. 1. The broken line showing in the figures is included for the purpose of illustrating portions of the medical instrument, instrument and tool for laboratory use and forms no part of the claimed design.
