(57) **CLAIM**

The ornamental design for a maxillary frenum clamping tool, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a maxillary frenum clamping tool showing my new design;
 FIG. 2 is a front elevational view thereof;
 FIG. 3 is a rear elevational view thereof;
 FIG. 4 is a right side elevational view;
 FIG. 5 is a left side elevational view;
 FIG. 6 is a top view thereof;
 FIG. 7 is a bottom view thereof; and,
 FIG. 8 is a perspective view shown with the clamping tool pivoted to an open position.

The broken lines in FIGS. 1 and 8 are for illustrative purposes only; the broken lines representing the holes in the finger loops are shown as being circular, but may be oval or D-shaped, the shape of the holes in the finger loops form no part of the claimed design. Similarly, the broken lines show the clamp locking mechanism as linear, but it may be arcuate or arched. The shape of the clamp locking mechanism forms no part of the claimed design
