(57) **CLAIM**

We claim the ornamental design for a delivery device for hemostatic compositions embodying the new design, as shown and described.

DESCRIPTION

FIG. 1 is a first perspective view of a delivery device for hemostatic compositions with a cap removed embodying the new design.

FIG. 2 is a front view of the delivery device for hemostatic compositions with a cap removed embodying the new design.

FIG. 3 is a rear view of the delivery device for hemostatic compositions with a cap removed embodying the new design.

FIG. 4 is a first side view of the delivery device for hemostatic compositions with a cap removed embodying the new design.

FIG. 5 is a second side view of the delivery device for hemostatic compositions with a cap removed embodying the new design.

FIG. 6 is a top view of the delivery device for hemostatic compositions with a cap removed embodying the new design.

FIG. 7 is a bottom view of the delivery device for hemostatic compositions with a cap removed embodying the new design.

FIG. 8 is a perspective view of the delivery device for hemostatic compositions with a cap attached embodying the new design.

FIG. 9 is a front view of the delivery device for hemostatic compositions with a cap attached embodying the new design.

FIG. 10 is a rear view of the delivery device for hemostatic compositions with a cap attached embodying the new design.

FIG. 11 is a first side view of the delivery device for hemostatic compositions with a cap attached embodying the new design.

FIG. 12 is a second side view of the delivery device for hemostatic compositions with a cap attached embodying the new design.

FIG. 13 is a top view of the delivery device for hemostatic compositions with a cap attached embodying the new design; and,

FIG. 14 is a bottom view of the delivery device for hemostatic compositions with a cap attached embodying the new design.

The dashed lines are for illustrative purposes only and form no part of the claimed design.
