(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

The sole FIGURE is a front elevational view of a display screen with graphical user interface.

The broken lines illustrate a display screen and form no part of the claimed design. The other evenly spaced broken lines illustrate parts of the graphical user interface that form no part of the claimed design. The dot-dash broken lines in the figure illustrate a boundary of the claimed design and form no part of the claimed design. Within this boundary, each of the five collinear lines, which are located outside of the solid lined squares with rounded corners, are part of the claimed design.
