(57) **CLAIM**  
The ornamental design for a tire, as shown and described.

**DESCRIPTION**

FIG. 1 is a right perspective view of a tire according to the design, the left perspective view being a mirror image; FIG. 2 is a front view thereof; and, FIG. 3 is an enlarged front view thereof.  
In the drawings, the broken lines defining the sidewall and inner bead depict environmental subject matter that forms no part of the claimed design. The dash-dot line defines the peripheral boundary between the claimed tire tread and the unclaimed sidewall.  
It is understood that the claimed tire tread pattern is intended to be applied to the entire surface of the tire, as indicated schematically in solid lines in the drawings.

**1 Claim, 3 Drawing Sheets**

**FIG. 1**

**FIG. 2**

**FIG. 3**
