(57) **CLAIM**

The ornamental design for a display screen with graphical user interface having color tag groups, as shown and described.

DESCRIPTION

The FIGURE is a view of a display screen with graphical user interface having color tag groups according to the invention.

The outermost broken lines illustrate an electronic device, which is the environment of the design and forms no part of the claimed design. The broken line showing of a display screen forms no part of the claimed design. The remaining broken lines, including text that are in broken lines and the graphs, illustrate portions of the graphical user interface that form no part of the claimed design.
