(57) **CLAIM**

We claim the ornamental design for a bottom bracket shroud for ebike, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a bottom bracket shroud for ebike showing our new design.

FIG. 2 is a front elevation view of the bottom bracket shroud for ebike of FIG. 1.

FIG. 3 is a rear elevation view of the bottom bracket shroud for ebike of FIG. 1.

FIG. 4 is a right side elevation view of the bottom bracket shroud for ebike of FIG. 1; and,

FIG. 5 is a top plan view of the bottom bracket shroud for ebike of FIG. 1.

The portions of the drawings shown in broken lines form no part of the claimed design. The alternating long and short broken lines are boundary lines and may not exist in reality in the article embodying the design. The bottom view of the bottom bracket shroud for ebike is obstructed when installed on an ebike and therefore is not a matter of ornamental concern.
