(57) **CLAIM**

The ornamental design for a display screen with graphical user interface for medical treatment and/or diagnostics, as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of one embodiment of a display screen with graphical user interface for medical treatment and/or diagnostics; and,  
FIG. 2 is a front view of one embodiment of a display screen with graphical user interface for medical treatment and/or diagnostics.

The broken line perimeter showing of the display screen and all interior broken lines showing graphical user interface elements are included for the purpose of illustrating portions of the article and form no part of the claimed design.
