(57) **CLAIM**

The ornamental design for a display panel or screen with an animated graphical user interface, as shown and described.

**DESCRIPTION**

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

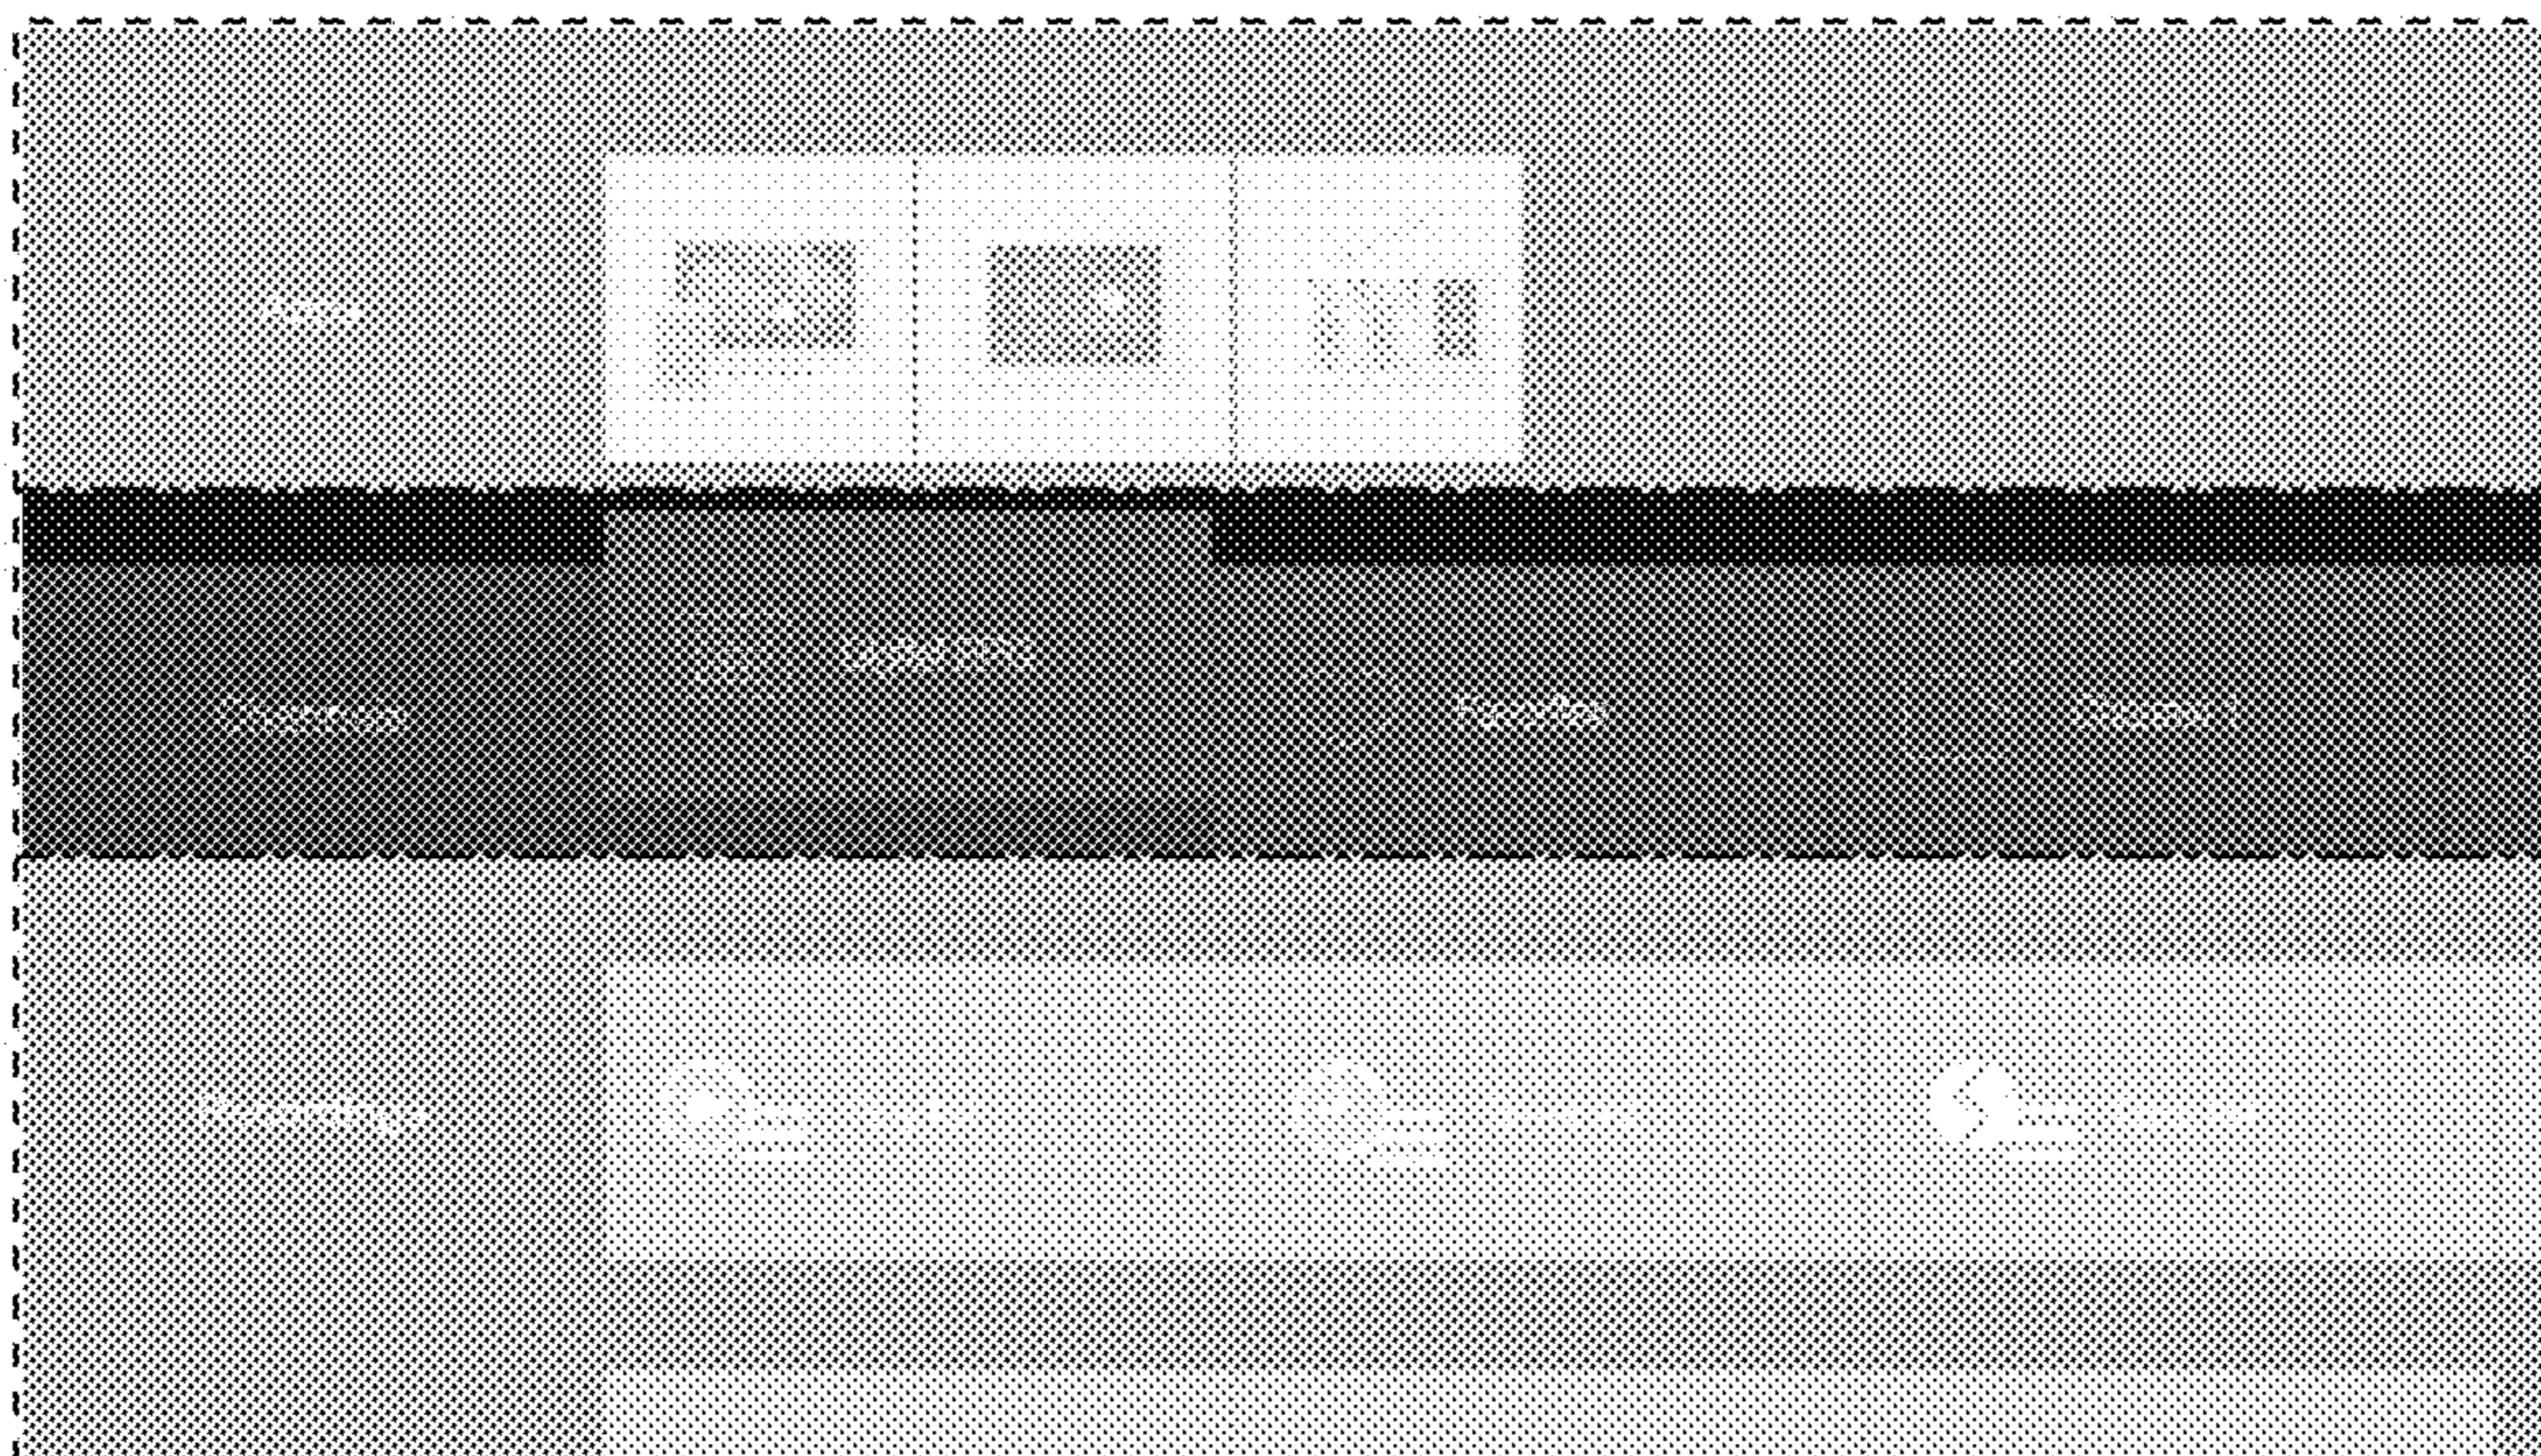

FIG. 1 is a front view of a first image of a display panel or screen with animated graphical user interface showing our new design; and,

FIG. 2 is a front view of a second image thereof.

The outer-most even dash broken lines showing the display panel or screen form no part of the claimed design. The other even dash broken lines showing text and portions of animated graphical user interface form no part of the claimed design. The dot-dash broken lines form no part of the claimed design. The greyscale area between the outermost even-dashed broken lines and the dot-dash broken lines form no part of the claimed design.

The appearance of an image sequentially transitions between FIGS. 1-2. The process or period in which an image transitions to another forms no part of the claimed design.
