(57) **CLAIM**

The ornamental design for an electronic device, as shown and described.

**DESCRIPTION**

The FIGURE is a perspective view of an electronic device, as shown and described.

The broken lines shown in the FIGURE depict environment or structure only and form no part of the claimed design.

The top interior surface, the right corner of the bottom interior surface, and the bottom exterior view of the article are not shown in the drawing or described in the specification. It is understood that the appearance of any part of the article not shown in the drawing or described in the specification forms no part of the claimed design. As such, the determination of patentability is based on the design for the article shown and described.
