(57) CLAIM

I claim the ornamental design for a display screen or portion thereof with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen or a portion thereof with animated graphical user interface showing a first image of the claimed design;

FIG. 2 is a front view of a display screen or a portion thereof with animated graphical user interface showing a second image of the claimed design; and,

FIG. 3 is a front view of a display screen or a portion thereof with animated graphical user interface showing a third image of the claimed design.

The outer broken lines show the contour of a cellphone and a display screen or portion, and thereof form no part of the claimed design. Other broken lines in the figures show portions of the animated graphical user interface that form no part of the claimed design.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-3. The process or period in which one image transitions to another image forms no part of the claimed design.
