(57) **CLAIM**

The ornamental design for a display screen with graphical user interface for controlling an electronic candle, as shown and described.

DESCRIPTION

The patent or application file contains a least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of a first embodiment of the display screen with graphical user interface for controlling an electronic candle;

FIG. 2 is a front view of a second embodiment thereof;

FIG. 3 is a front view of a third embodiment thereof; and, FIG. 4 is a front view of a fourth embodiment thereof.

The broken-line disclosure represents portions of the display screen for the graphical user interface which form no part of the claimed design.
