(57) **CLAIM**

The ornamental design for an enclosure panel with LED charging indicator, as shown and described.

DESCRIPTION

FIG. **1** is a perspective view of an enclosure panel with LED charging indicator, showing our new design;
FIG. **2** is a front face view thereof, showing the LED charging indicator in a first mode of the sequence;
FIG. **3** is a front face view thereof, showing the LED charging indicator in a second mode of the sequence;
FIG. **4** is a front face view thereof, showing the LED charging indicator in a third mode of the sequence; and,
FIG. **5** is a front face view thereof, showing the LED charging indicator in a fourth mode of the sequence.
The transition of such modes is shown in FIGS. **2-5**. The process or period in which one mode transitions to another forms no part of the claimed design.
The broken line showing on the drawing disclosure illustrates portions of the enclosure panel with LED charging indicator which the design is embodied that form no part of the claimed design.
